VOL. 72. NO. 81.

NEGRO SENTENCED TO BE HANGED AT CITY JAIL DEC. 16

Judge Garesche Fixes Date
for Execution of Woodville
Thurston, Convicted of
Assault on Young Woman.

FOUND GUILTY BY
JURY LAST APRIL.

Charges in Case Brought by
Stenographer—Last Hang-
ing in St. Louis Was of
Negro in 1907.

Circuit Judge Garesche today formally sentenced Woodville Thurston, 35 years old, a negro, to be hanged in the city jail between the hours of 4 a. m. and 6 p. m. on Dec. 16. Thurston was found guilty last April by a jury of having committed a criminal assault upon Miss Marcella E. Herbold, 20 years old, a stenographer of 1140 Lawn avenue, and the punishment was fixed at death.

The last hanging in St. Louis was that of John King, a negro, who was executed June 27, 1907, for the murder of Hallie Douglas, a negro woman, whom he shot to death.

Judge Garesche presided at the trial of Thurston, and today was called into the court of Judge Landwehr to pass sentence. Judge Garesche having been transferred to the civil division since the trial. He said if Thurston had anything to say before sentence was pronounced.

Statement by Prisoner.
The prisoner, who appeared entirely composed, made a brief statement, in which he said that he did not believe he had been given a fair trial. He said there were witnesses who could have been produced for him, but that he was unable to get them into court. He wrote to them, he said, but because, as he believed, of the fact that he was in jail they did not respond. He said he had no money to employ counsel, and he accepted an attorney appointed by the court to defend him.

D. W. Bowles, his lawyer, seconded this plea, and pointed out that he had only 24 hours to prepare the defense of Thurston. Judge Garesche replied that Bowles was an able lawyer, and that he did not take the measures which would have enabled him to obtain a postponement of the trial. Judge Garesche said he felt the defendant had been given a full opportunity to present his case, and again asked Thurston if he had anything further to say.

Notice of Appeal Filed.
Thurston replied that he could have put up a better defense, but that the witnesses to whom he wrote failed to respond. He "gave up."

Judge Garesche then pronounced sentence, and Bowles filed notice of appeal.

The offense of which Thurston was convicted was committed last Jan. 14. Miss Herbold was on her way home from the Board of Education, when she was employed, and intended to get off the Manchester car at King's highway. She rode past her stop and got off two blocks beyond. It was 3:30 p. m. and dark. The street was flanked by a vacant lot. A negro stepped from behind a telephone pole, brandishing a knife and ordered her to be quiet. She struggled, but was dragged into a dark patch and attacked. She arrived home some time later, hysterical and in a serious condition.

Thurston was arrested from Miss Herbold's description. She identified him as the assailant. The owner of a hideout started him, and he had also identified him as having been in the stand a short time before.

Arrested in 1917.
Thurston and his brother, Thomas, were arrested in 1917 upon the statement of Miss Clara Trimmer, 17 years old, of 5429 Blackfoot avenue, that they attempted to attack her at Mackinac and Draget avenues and, failing, had robbed her. Thurston was found guilty of robbery and sentenced to five years in prison. A motion for a new trial was granted, however, and later, by agreement of counsel, he was permitted to plead guilty to common assault and sentenced to six months in the workhouse.

He was paroled to give him an opportunity to enlist in the army, which he did. He was in the army for some time, but did not go overseas. Thurston was the first person against whom the death penalty was returned in St. Louis since the restoration of capital punishment in Missouri, in October, 1919.

Oil Discovered on Poor Farm.
By the Post-Dispatch.
TULSA, Ok., Nov. 18.—Creek county no longer has a poor farm. Instead it boasts a rich farm. Oil has been discovered on the 80 acres of land owned by the county two miles west of Ellettsville, Ok., and used as a home for the county's poor. The city will drill for oil on 40 acres of land, set aside for park purposes.

NEGRO WOMAN AND TWO MEN KILLED BY MOB IN GEORGIA

Prisoners Suspected of Slaying Planter Are Taken From the Sheriff.

By the Associated Press.
DOUGLAS, Ga., Nov. 18.—Two negro men and one negro woman, accused of implication in the killing of Percy Harper, a young planter of this county, were shot early today by more than 150 men, who overpowered Sheriff Tanner and two deputies, who were attempting to get the negroes to Fitzgerald for safekeeping.

An attempt had been made last night to storm the jail where the negroes, Will Perry, Willie Ivory and Minnie Ivory, his wife, were held, but the crowd dispersed after listening to an appeal by Sheriff Tanner to allow the law to take its course.

Early today the Sheriff decided to transfer the prisoners to Fitzgerald and started in an automobile. A mob was organized and set out in pursuit.

Overtaking the Sheriff seven miles from Douglas, the mob, according to the officers, demanded that the negroes be turned over to them. Upon his compliance, lined them up and shot them.

A coroner's jury, impaneled shortly after the shooting, reached here, returned a verdict that the negroes met their deaths at the hands of unidentified persons.

ESTATE OF MRS. EVA S. BARNES
INVENTORIED AT \$630,792

Property of Grain Commission Merchant's Widow Includes Bonds Valued at \$433,800.

An inventory of the estate of Mrs. Eva S. Barnes, filed for probate today by the St. Louis Union Trust Co., executor, showed a valuation of \$630,792.35, consisting of bonds, \$83,927.45; stocks, \$94,250; notes, \$433,800, and other property, \$18,714.

Mrs. Barnes was the widow of Baron S. Barnes, a St. Louis grain commission merchant. She died Aug. 23 last at Colorado Springs, Colo. In her will she left the bulk of her estate to her children, Baron S. Barnes of Tulsa, Okla., Anna Louise Barnes of Grand Rapids, Mich., and Mrs. Edith Mason Polacco of Wenatchee, Ill.

ALBERT ELLIS PLEADS NOT
GUILTY; CASE SET FOR JAN. 3

Confessed Slaying of Edna Ellis, Through His Counsel, Waives Hearing of Indictment.

Albert Ellis, confessed slayer of Edna Ellis, 18 years old, of 1833 North Garrison avenue, whose throat was cut on a vacant lot near her home the night of Nov. 4, pleaded not guilty to charge of first degree murder today in Judge Hartmann's court.

Through his counsel, William Maffitt Bates, Ellis waived the reading of the indictment. His trial has been set for Jan. 3 next.

Since making his confession, Ellis has several times repudiated it, and at other times he has repudiated the repudiations.

PRESIDENT'S HEALTH REPORTED
IMPROVED SINCE ELECTION

By the Associated Press.
WASHINGTON, Nov. 18.—President Wilson's health was said today to show improvement since the election, and the consequent removal of the anxiety shown by the President over the decision of the electoral college.

Despite the cold weather, Mr. Wilson spends some time each day on the south porch of the White House. He also is devoting much time to public business and to the preparation of his annual message to Congress.

"INDIA SITUATION DANGEROUS"

Secretary Montagu Makes Admission in English Commons.

By the Associated Press.
LONDON, Nov. 18.—A dangerous situation exists in India, according to Edward Samuel Montagu, Secretary for India, who made this admission in the House of Commons yesterday. He added that the Indian Government would be left perfectly free to take whatever steps it deemed necessary in dealing with this situation.

\$823,000 IN BONDS PROBABLY IN ONE OF STOLEN MAIL BAGS

Tabulation Slip With That
Total Found by Inspectors
Working on Council
Bluffs Robbery.

3 MORE POUCHES
FOUND IN LAKE

Two of Three Men Under Arrest Say They Burned Securities, Keeping Only Money in Bags.

By a Staff Correspondent of the Post-Dispatch.
COUNCIL BLUFFS, Ia., Nov. 18.—It was learned from an official source today that one of the 10 mail pouches stolen last Saturday evening from a Burlington Railroad storage car probably contained \$823,000 in Liberty bonds consigned from San Francisco to the Treasury at Washington. This was ascertained from a recapitulation slip found in a rifled pouch near a schoolhouse in Council Bluffs, a quarter of a mile from the railroad tracks where the pouches were thrown from the car. The slip contained the number of bonds and the total amount inclosed in the pouch.

Three men are under arrest in connection with the theft and all have confessed part in it. Two are Fred E. Poffenbarger, a former fireman from the Northwestern Railroad, also of Council Bluffs, Orville Phillips and Council Bluffs. Phillips usually large shipments of registered mail through their possession. They say a considerable amount of currency was found in another pouch, and they were satisfied with this.

Three Pouches Found in Lake.
Through the confession of Orville Phillips, who was arrested last evening, three more of the pouches were found in a small lake about a half-mile from Poffenbarger's home. The pouches had been rifled of any currency they might have contained, but a few Liberty bonds of small denominations were found intact in their original packages. Five pouches are still missing.

The finding of the recapitulation slip confirms the belief of Postoffice Department officials here that the sum contained in the 10 pouches ran very high. The car from which they were stolen carried 136 registered pouches from Seattle, San Francisco and points between, usually large shipments of registered mail from these points. The local postoffice inspectors, who have been reinforced by a dozen others from Des Moines, Chicago and other cities, do not believe the bonds were burned, but a thorough search of the homes of the men under arrest has failed to reveal any trace of them, or of any of the contents of the other pouches.

Merl Phillips, 20 years old, a mail handler employed by the Burlington, was arrested Sunday, and although confessing part in the robbery, refused to give any definite information of his accomplices.

Tell of Burning Bonds.
Poffenbarger, who was arrested yesterday, implicated Orville Phillips, and the latter told where the pouches in the lake could be found. Poffenbarger and Orville Phillips said they destroyed the bonds in a stove at the former's home after Merl Phillips' arrest. The officials are seeking a fourth man who is said to have driven the automobile used by the three men to cart away the pouches and who can account for the remaining five pouches. His identity is known.

Merl Phillips' story of the robbery is conflicting in details only and is substantially as follows: Phillips met two men in a pool hall and they suggested the robbery. He was to board the engine tender at the Union Pacific transfer point at Twenty-first street, between Omaha and Council Bluffs, where mail is transferred from Western trains to Eastern trains, and serve as a look-out. The others were to board the mail storage car, break in and throw away the bonds in the river. This was done, Phillips said, and he left the train at Twelfth street. The robbers later failed to keep an appointment with him and he was arrested on information furnished by an engineer, who saw him on the tender.

Mail Packages in Rock Island Storage Car Reported Robbed.

By the Associated Press.
OMAHA, Neb., Nov. 18.—Robbers are reported to have boarded Chicago & Rock Island train No. 7 between Des Moines and Omaha early today and rifled two insured parcels post mail sacks in a "storage" car. No estimate of the amount of the loot has been obtained.

FOUR MEMBERS OF LEAGUE TO SEND TROOPS TO VILNA

Spanish, British, Belgian and French Soldiers to Keep Order During Plebiscite There.

EXECUTIVE BODY FOR
LEAGUE VOTED ON

Six Vice Presidents, to Act—Lord Cecil, Alluding to Harding Speech, Says League Is Alive.

By the Associated Press.
GENEVA, Nov. 18.—It was announced by the League of Nations today that Spain and Great Britain, as well as France and Belgium, would send troops to Vilna to maintain order during the plebiscite to be held to determine the political fate of that city as between Lithuania and Poland.

The report of the Council of the League was again before the Assembly for consideration at today's session as was the election of six vice presidents who, with the chairman of the Assembly's six commissions, will comprise the bureau, or executive committee of the body.

Vice Presidents Elected.
The result of the balloting for vice presidents was announced by President Hymans. Five vice presidents were elected on the first ballot. They are: Viscount Ishii, Japan; H. A. Van Kanten, The Netherlands; Hon. Eduard Benes, Foreign Minister of Czechoslovakia, and Sir George E. Foster, British Minister of Trade and Commerce. A majority for the sixth member was lacking and another ballot was taken, on which Delegate Octavio de Brazil was elected, receiving 22 votes to 6 for Lord Cecil, Chief of the British Delegation, and 2 for Dr. Gastao de Cunha of Brazil.

President Hymans had proposed that the assembly choose between two candidates having the highest votes at the end of the list, but Rene Viviani of France demanded that the assembly be left free to make its choice unrestricted.

An animated discussion took place in the Brazilian delegation between the two ballots while the matter of voting was being discussed, and Delegate M. W. Rowell of Canada made a brief but energetic speech against continual proposals of departures from regular procedure.

Committee meetings began this afternoon.

Red Cross Praised.
Dr. Fridtjof Nansen of Norway took the floor to report to the assembly the work done in connection with the prisoners of war. He prefaced his remarks with an expression of full accord with and great admiration for the speech delivered yesterday, by Lord Robert Cecil, and he hoped the committee would take up their work in the spirit which animated the speaker's remarks.

The explorer gave in English a vivid picture of the situation of the war prisoners in Russia, their privations and sufferings. Without the aid of the international Red Cross he said, little could have been done toward the repatriation of the prisoners.

Dr. Carlos Uruea, delegate from Colombia, moved a resolution of thanks to the Red Cross for its aid in repatriating the prisoners.

Notwithstanding thrusts directed at them yesterday by Delegate Milen of Australia for their lack of promises, the delegates again were tardy in assembling today, less than half of their number being present at the opening hour. These were collected in groups about the hall, commenting animatedly on yesterday's committee election, in which the Latin countries captured nine out of the total of 12 chairmen and vice chairmen.

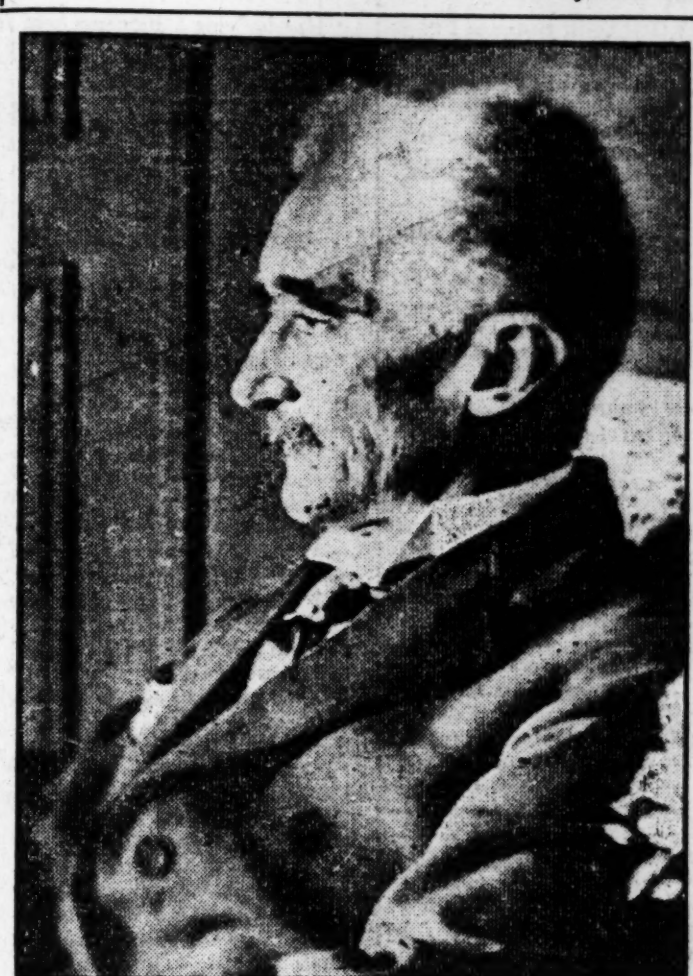

Delegate Captured by Bandits.
The secretary of the Assembly was notified today that Prince Armand Dowling, head of the Persian delegation, had met with a thrilling adventure with a tragic end for his secretary, while the delegation was on its way to Geneva from Tachong, the Persian capital. Between Tachong and Shiraz the Prince was captured by a robber band. The robbers seized the Prince's papers and killed his secretary. The Prince escaped. The authorities captured the band and restored the papers and the Prince is continuing his journey. He sent word that he hoped to arrive in Geneva shortly.

South America and South Africa held the floor yesterday.

Honorio Pueyrredon, head of the Argentine delegation, set forth impressively the Argentine view that all recognized nations must belong to the league to make it complete.

Continued on Page 2, Column 7.

President of Assembly of League of Nations Chosen at Geneva

PAUL HYMANS

Former Foreign Minister of Belgium, who has been elected President of the Assembly of the League of Nations at the first session of the League in Geneva. He was a member of the Belgian delegation to the Peace Conference and also of the Council of the League of Nations.

BRITISH CABINET DECIDES ON TRADE WITH RUSSIANS

Agreement Will Probably Be Submitted for Approval of Foreign Trade Relations Committee in Few Days.

By the Associated Press.
LONDON, Nov. 18.—Premier Lloyd George stated in the House of Commons today that the cabinet had decided that a draft of an agreement for trade with Russia should be ready for submission to the Russian government in a few days.

The Premier said the agreement would not be entered into until Great Britain was satisfied that the undertaking given by the Soviet Government regarding the release of British prisoners was being carried out.

A wireless dispatch received from Moscow, the seat of the Russian Soviet Government, says:

"Wang's destruction will make a great impression on all the western countries. There is information that England is carrying on agitation in the United States in favor of a renewal of trade relations with Soviet Russia."

Foreign newspapers more and more frequently state that the American Government will not place obstacles in the way of its capitalists trading with Soviet Russia.

"There is no doubt that the Western countries will be forced to recognize the Soviet Government."

BEET SUGAR PRICE DROPS AGAIN

Colorado Factories Make Cut of 50 Cents a Hundred.

By the Associated Press.
DENVER, Colo., Nov. 18.—Colorado factories today announced a further cut in the price of beet sugar amounting to 50 cents a hundred pounds. This is the third cut in 19 days and a total reduction in price of \$2.50 a hundred pounds since the new sugar beet crop came on the market early in October.

NEW YORK, Nov. 18.—Failure of bankers to arrive at any definite conclusions in regard to a Cuban loan seemed today to have undermined sentiment in sugar to some extent and led to increased pressure in the market, with both raw and refined making new low records for the season. Raws declined to the basis of 6.25c for centrifugal and refined to 5.90c for the granulated.

HYDE SPENT \$774.70 IN 2 RACES

By the Post-Dispatch.
JEFFERSON CITY, Nov. 18.—Gov.-elect Arthur M. Hyde filed his expense account for both the primary and general election campaigns today, in which he says that his entire expenses amounted to only \$774.70.

Of that amount, \$325 was for advertising, \$184.42 for postage and \$150 for incidentals.

5 PRIMARY ELECTION OFFICIALS IN 17TH WARD ARE INDICTED

BUILDING CRAFTS
TO SEEK UNIFORM
YEARLY CONTRACTS

Building Trades Council to Propose Change to Master Builders With \$1.25 as Minimum Wage.

The Buildings Trades Council, representing 21 affiliated unions, comprising a total membership of 10,000 building craftsmen, has directed its president, Charles J. Lammert, and its secretary, Maurice J. Cassidy, to negotiate with the Master Builders' Association and the Institute of Architects for a blanket contract for a uniform wage of \$1.25 an hour for all building workmen to run for a period of one year.

It was pointed out at a meeting of the council last night, at which a resolution recommending the adoption of a uniform wage scale was passed, that less than 200 building trades unionists are now receiving less than \$1.25 an hour. Attention also was called to the fact that the Master Builders for several years past have been urging the unions to sign a blanket contract to avoid controversy, resulting from "readjustment" of wage scales when the contracts of individual unions expired at various times during the year.

Reasons for Change.
Under the present system the contracts of some unions expire in March, others in April, May and July and some have until September to run. The contractors, not knowing when a demand for increased wages may have to be met, have counseled the unions to sign a uniform wage scale for a year's period so that the question of wages for all unions may be disposed of at one time.

President Lammert said today that the public would benefit by the new policy, as building contractors will know at the beginning of the year just what building construction will cost throughout the year, so far as the labor is concerned.

With the exception of the asbestos workers, marble setters, tile layers, stonemasons, composition roofers, stuccoers, granite cutters and sprinkling fitters, members of all 21 unions now are receiving an average of \$1.25 an hour. Members of the eight unions named receive an average of \$1 an hour.

President Lammert said that the Building Trades Council had not considered the possibility of the Master Builders suggesting a reduction in wage scales. He said the contractors had not indicated any such intention and that judging from what he knew of the situation they would agree to the maximum wage now being paid.

Wage Reduction Feared.
"We do not contemplate a reduction in wages," said Lammert, "because the cost of living has not been reduced. While wholesalers have lowered the prices of the retailers have not followed the example. Such an agreement as proposed would reduce the possibility of strikes to a minimum, enable the workers to complete jobs in specified time and permit the owners to realize on their investments at the earliest moment. It is our desire to begin under the blanket contract system as soon after the beginning of the year as possible. Of course, that is a matter that will have to be discussed with the employers."

Officials of the council said that agreements such as the one contemplated here have been adopted in Boston, San Francisco, Kansas City, Chicago and Fresno on the basis of \$1.25 an hour uniform wage.

Lonely Vigil With Dead Wife

Light Keeper Marooned With Body From Mainland by Storm.

MIDLAND, Ontario, Nov. 18.—Held to his post by the menacing storm which raged on Lake Huron, though nearly prostrated by the death of his wife, for 32 years his sole companion, Alfred H. Griffith, keeper of the lighthouse of "Glantz" Isle, stood solitary vigil over his lights and his dead for three days and nights.

The storm having subsided yesterday, he called help from the mainland, 12 miles away. The body of the woman, who died suddenly Friday night, was brought ashore for burial.

False Return of Votes Cast in 12th Precinct, Charge Against Two Republicans and Three Democrats.

ONE G. O. P. JUDGE GRAND JURY WITNESS

Action Follows Indictment of 12 Other Precinct Election Officials on Similar Charges.

Five men who served as election officials in the Twelfth precinct, Seventeenth Ward, in the primary Aug. 3, were indicted today by the grand jury, charged with having made a false return of votes cast.

The men indicted are Charles Ingraham of 3310A Olive street, one of the two Republican judges of election in the precinct; Joseph R. Ferguson, 3208A Olive street, the Republican clerk; Arthur E. Lang of 221 North Compton avenue and Louis Kern of 3206 Olive street, Democratic judges, and James J. Carroll, 221 North Compton avenue, Democratic clerk. The precinct polling place was at 123 North Ewing avenue.

The other Republican judge in the precinct was a witness before the grand jury, and it was his complaint of the methods of the others which caused the precinct return to be investigated. He is the Rev. B. F. Abbott of 3210 Pine street, pastor of Union Memorial (Negro) Methodist Church, Pine street and Lettingwell avenue.

John Kelly, a professional bondsman, called at the Municipal Courts building about 2 p. m. and said the five indicted officials had all been "rounded up" by Frank M. Slater, committeeman of the ward, and were ready to come in and give bond as soon as they could get into communication with Judge Hall, who was not then at the Municipal Courts building.

Previously Indicted.
Twelve other precinct election officials in the primary have previously been indicted on similar charges. They are the six officials of the Fifth Precinct, Sixth Ward, polling place at 19 South Tenth street, and the six officials of the Fifteenth Precinct, Twentieth Ward, at 4847 Easton avenue.

Ballot boxes from the Fifth Ward, Fourth Precinct, and from the First Ward, Second Precinct, were taken to the Circuit Attorney's office today, for investigation by the grand jury. Former Circuit Judge William Zachritz, who was a defeated candidate for nomination for Circuit Judge at the August primaries, entered the grand jury room at the jury opened its afternoon session. The Ward 1, Precinct 2, box was taken before the jurors when they met.

Those who wished to vote for Slater for committeeman, therefore, had to write his name on the ballot, scratching Patillo. The precinct returns, as signed by the election officials, showed 90 votes for Slater in the precinct. The number of ballots voted in the precinct was given as 179.

Judge Cut Name Off Returns.
Before his appearance in the grand jury room, Pastor Abbott said to reporters that he had seen a man write the name of Slater on some of the ballots. He said that at the beginning of the day, the judges and clerks signed their names to the return sheet, to save time later. Later in the day, he declared, after he had witnessed the practices which were permitted by the other election officials in the precinct, he took a knife and cut his signature out of the sheet.

He said that the original total of votes cast was 179, but that when he protested against the methods of the others, and demanded a new count, a new total of 179 ballots appeared. He said he then ceased to protest.

Continued on Page 2, Column 2.

CONSTANTINE TO RETURN TO GREECE IF VOTERS DEMAND

Former King Insists on Plebiscite; Says He Always Knew the People Were With Him.

WANTS GREEKS IN U. S. TO INDICATE CHOICE

Declares He Is Friend of Britain—Said to Favor Harding's Plan for New League of Nations.

Special Cable to the Post-Dispatch.
 LACERNE, Nov. 18.—The correspondent has just had an interview with ex-King Constantine regarding the result of the Greek elections. In reply to a question whether he would return to Greece, he stated he had always regarded himself as King of the Hellenes. If he returned now he would be regarded as having been recalled by a party, and would, therefore, prefer that there should be a plebiscite to express the will of the entire people.

It was suggested that the new Government might avoid difficulty with the allied Governments by proposing Prince George as King and asked whether he would make the same reply as Prince Paul. To this Constantine replied that he undoubtedly would.

"What," was asked, "would be the effect of your return on the Greek foreign policy?"
 "Of course," he said, "I am not the Government, but my feeling is that it would be exactly the same as it is today. I think it would be to the interest of Great Britain to have us as her ally, just as it always has been, and she would have a stronger ally because the country would be internally united. It always has been my idea that it was to the interest of Greece to be on the side of England. I did not say that just as a compliment to you, I mean in view of the geographical situation of the country."

"I did not want to take part in the world war. I was not the particular friend of Germany or of Russia, either. I wished to remain neutral."
 "What will be your position as regards the treaties?" was asked.
 "The treaties will be ratified by the new Government," was the reply.
 "And what about Mustafa Kemal?"

"If Mustafa Kemal wants to clear us out of Smyrna we must fight him. It may be a Venizelos equation, but that is no reason why we should go against our own interests."

"What will be your attitude as regards France and England?"
 "I have no feeling of enmity toward anybody as the people have tried to make out. I am not an enemy of the Entente, and never shall be."

"The King called attention to the strongly biased reports of particular papers and asked that a statement of the London papers that he received his rights to the throne, having accepted the decision of the allies, including a pension of £20,000 (normally \$100,000), be corrected. Such a pension, he said, was included in the papers presented to him by Jannet when asking him to leave Greece, but he never received a penny and never asked for it."

VENIZELLOS LEAVES ATHENS; QUEEN MOTHER REGENT

New Premier Says Vote Indicates People Want Constantine to Return.

ATHENS, Nov. 18.—George Rallis, the new Premier of Greece, with three members of his Cabinet, took the oath of office before Admiral Goundouriotis, the regent, at 1 o'clock yesterday. Those who qualified in company with the Premier were M. Gounaris, Minister of War; M. Baladris, Minister of Interior; and M. Calogeropoulos, Minister of Finance. M. Rallis will hold the portfolio of Minister of Foreign Affairs.
 Immediately after he had qualified, office M. Rallis demanded the resignation of the regent. Other members of the new Cabinet will take the oath before Queen Mother Olga tomorrow.

Former Premier Venizelos left Athens yesterday. Bands of civil guards and men from many military units went through the city during the day, acclaiming former King Constantine and firing revolvers as a token of rejoicing.

New Premier's Views.
 "The return of King Constantine to the throne of Greece is demanded by the outcome of the recent election in the country, in the opinion of the new Premier. M. Rallis referred to the elections as 'a great demonstration of the foreign domination which was supporting M. Venizelos,' and gave assurance that plots by nationalist officers would be suppressed."

LABOR HEAD INDICTED ON EXTORTION CHARGE

ROBERT P. BRINDELL

President of New York Building Trades Council Got \$1,000,000, Federal Prosecutor Tells Court.

\$100,000 BAIL FIXED BY COURT

Three Counts in Indictment, Specific Charge Being Attempted to Get \$7500 From House Wrecker.

NEW YORK, Nov. 18.—Two new indictments charging crime as a result of the investigation of the "building trust" here were returned by the grand jury today. The names of those indicted and the offenses charged were not made public.

By the Associated Press.
 NEW YORK, Nov. 18.—The Joint Legislative Committee's investigation into the "Building Trust" has resulted in the indictment of Robert P. Brindell, president of the Building Trades Council—one of the highest paid labor leaders in the United States—on charges of attempting to extort money from contractors by threats of calling strikes.

Collective extortion charges against Brindell, Special Assistant District Attorney Richter, declared in appealing to the Court to place the labor leader under heavy bail, will aggregate \$1,000,000.

After pleading not guilty, Brindell was held a prisoner yesterday in the Criminal Courts Building for more than an hour until his counsel could obtain the \$100,000 bail bond necessary for his release. He was given nine days in which to amend or change his plea or make necessary motions.

\$100,000 Bail Bond Required.
 The indictment, the second returned by the additional grand jury handling cases growing out of the legislative investigation, contained three counts. In it Brindell was charged specifically with attempting to extort \$7500 from Jacob Fradus, a house wrecker, by threatening to call a strike on a demolition job unless the money was paid him.

Vigorous protest was made to Judge Mulqueen in the General Sessions Court by Martin W. Littleton, counsel for Brindell, against the heavy bail. He said it was exorbitant, adding that despite the conspicuous new lines and disclosures made before the Lockwood committee, the defendant has evinced no intention of fleeing from the jurisdiction of the court.

Because he refused "to produce \$25,000" for Brindell, Fradus testified before the committee on Oct. 28, he "had been bankrupted and put out of business" by Brindell. Later, he said, he gave Brindell \$1000 for a letter which won a \$30,000 contract for a company organized by him.

Payments Up to \$32,000 Alleged.
 The indictment of Brindell was not unexpected. Payments totaling more than \$100,000 were alleged to have been received by the labor leader in the last 10 months.

Amounts of payments alleged ranged from \$200 to \$32,000, the latter being paid by Hugh S. Roberts, a builder, on account of an agreement to pay Brindell \$50,000 for "strike insurance" and "labor movement information."

Witnesses said Brindell and his agents referred to these payments as "commission," "compensation," "rake off," "our bit," "divvy" and "berries," one "berry" signifying \$1000.

Builders testified that Brindell had turned down offers of small amounts, declaring that he was no "piker." They characterized the labor leader's attitude as "bold," and said that unless they "came across" as directed he would not hesitate to put them out of the business.

In absolute control of the Building Trades Council with its membership of 115,000 union workers, Brindell has been regarded as one of the most powerful factors in organized labor in New York. He holds a life contract as business agent of the Dock Builders' Union, which has a membership of approximately 4800, each member of which contributes 50 cents a month out of his dues to Brindell's salary, which from this one union alone, is estimated at approximately \$30,000 a year.

BRINDELL, LABOR HEAD, INDICTED ON EXTORTION CHARGE

President of New York Building Trades Council Got \$1,000,000, Federal Prosecutor Tells Court.

\$100,000 BAIL FIXED BY COURT

Three Counts in Indictment, Specific Charge Being Attempted to Get \$7500 From House Wrecker.

NEW YORK, Nov. 18.—Two new indictments charging crime as a result of the investigation of the "building trust" here were returned by the grand jury today. The names of those indicted and the offenses charged were not made public.

By the Associated Press.
 NEW YORK, Nov. 18.—The Joint Legislative Committee's investigation into the "Building Trust" has resulted in the indictment of Robert P. Brindell, president of the Building Trades Council—one of the highest paid labor leaders in the United States—on charges of attempting to extort money from contractors by threats of calling strikes.

Collective extortion charges against Brindell, Special Assistant District Attorney Richter, declared in appealing to the Court to place the labor leader under heavy bail, will aggregate \$1,000,000.

After pleading not guilty, Brindell was held a prisoner yesterday in the Criminal Courts Building for more than an hour until his counsel could obtain the \$100,000 bail bond necessary for his release. He was given nine days in which to amend or change his plea or make necessary motions.

\$100,000 Bail Bond Required.
 The indictment, the second returned by the additional grand jury handling cases growing out of the legislative investigation, contained three counts. In it Brindell was charged specifically with attempting to extort \$7500 from Jacob Fradus, a house wrecker, by threatening to call a strike on a demolition job unless the money was paid him.

Vigorous protest was made to Judge Mulqueen in the General Sessions Court by Martin W. Littleton, counsel for Brindell, against the heavy bail. He said it was exorbitant, adding that despite the conspicuous new lines and disclosures made before the Lockwood committee, the defendant has evinced no intention of fleeing from the jurisdiction of the court.

Because he refused "to produce \$25,000" for Brindell, Fradus testified before the committee on Oct. 28, he "had been bankrupted and put out of business" by Brindell. Later, he said, he gave Brindell \$1000 for a letter which won a \$30,000 contract for a company organized by him.

Payments Up to \$32,000 Alleged.
 The indictment of Brindell was not unexpected. Payments totaling more than \$100,000 were alleged to have been received by the labor leader in the last 10 months.

Amounts of payments alleged ranged from \$200 to \$32,000, the latter being paid by Hugh S. Roberts, a builder, on account of an agreement to pay Brindell \$50,000 for "strike insurance" and "labor movement information."

Witnesses said Brindell and his agents referred to these payments as "commission," "compensation," "rake off," "our bit," "divvy" and "berries," one "berry" signifying \$1000.

Builders testified that Brindell had turned down offers of small amounts, declaring that he was no "piker." They characterized the labor leader's attitude as "bold," and said that unless they "came across" as directed he would not hesitate to put them out of the business.

In absolute control of the Building Trades Council with its membership of 115,000 union workers, Brindell has been regarded as one of the most powerful factors in organized labor in New York. He holds a life contract as business agent of the Dock Builders' Union, which has a membership of approximately 4800, each member of which contributes 50 cents a month out of his dues to Brindell's salary, which from this one union alone, is estimated at approximately \$30,000 a year.

Brindell's rise as a labor leader has been phenomenal. He came to New York less than 10 years ago looking for work, coming from Providence, R. I., where he is said to have been a dock clerk. He first appeared in the local labor movement as a dock builder, having had previous experience in this work in Canada, where he claimed to have been a member of a Quebec dock workers' union, at the age of 13.

While building docks, Brindell began organizing the workers and built up a wonderful union, one of the strongest in the country. He now heads. Later he was a prominent factor in the Board of Business Agents, which ceased to exist less than a year ago, when the council was organized.

SAYS REASON SHOULD SUPPLANT FORCE IN IRELAND

Chairman of Investigating Committee Declares World "Needs an Ending of Hate," in Opening Inquiry.

"POLITICAL LIFE OF AMERICA DISTURBED"

Asserts Commission Has Determined to Ascertain the Facts in Ireland and Reasons for Condition.

WASHINGTON, Nov. 18.—"Only the direct necessity" can justify a resort to arms for the adjustment of disputes in Ireland, Frederic C. Howe, chairman of the commission from the Committee on One Hundred investigating the Irish question, declared today at the opening of the commission's hearing. He added that the conditions in Ireland "have created and are creating a widening rift in the friendly relations of English speaking people, not only in America, but all over the world."

"What the world needs is peace," Howe continued, "it needs an ending of hate. Discussion should resume its ascendancy and reason should displace the employment of force."

"The orgy of destruction which is now ravishing Ireland is sending its repercussions to every corner of the civilized world. It cannot fail to postpone indefinitely the return of ordered tranquility to civilization."

In addition to this, the political life of America as well as its social processes are profoundly disturbed by the infection of the internecine war between peoples of our own flesh and blood."

Howe said the commission had determined to ascertain the facts in Ireland as nearly as possible what conditions are in Ireland and the reasons for them.

Mission to Ireland.
 "The commission plans to send a mission to England and Ireland to make an inquiry into conditions in the latter country," Howe explained. "It will investigate the killings and disorders. Quite as important to the permanent adjustment of the dispute is the economic and social conditions in Ireland, the extent to which the Irish have developed a self-contained economic life, as well as the extent to which the Irish people have evolved their own agencies of self-government during the last few years."

Denis Morgan of Thurles, Ireland, was the first witness called. He said he was a college teacher and that he had been elected chairman of the town council in the labor candidate, winning over Sinn Fein and Independent candidates.

Tells of Reprisal Raid.
 The witness described what he termed the shooting up of the town of Thurles by Government constabulary. He testified that after a constable had been shot last January 20, the constabulary, in reprisal, made a midnight raid upon homes and stores of townsmen prominent in the Irish independence movement. Ten houses and stores were riddled with bullets and hand grenades, he said.

"Was it apparent that these places were picked out?" asked Senator Walsh of Massachusetts.
 "Yes," Morgan replied. "They were all of people known to be associated with the movement for the independence of Ireland—leaders in this movement."

Of the houses shot up, Morgan said, four were of members of the newly elected town council. No rioting preceded the shooting, he continued, and he was told that the constabulary was "practically acting under orders." The witness described how he and his family lay huddled on a stone floor all night to escape the bullets flying through his windows and doors.

There were no religious differences between the Thurles inhabitants, Morgan said, and the town was law-abiding.

The witness testified that he was arrested by a squad of eight constabulary when he left his home January 30 to attend an organization meeting of the town council. He said he asked with the movement he was charged and the constabulary replied: "No charge; just Government orders."

Morgan told the commission that for six weeks after his arrest, he was continuously transferred from place to place.

No Indictment or Trial.
 Morgan told the commission that for six weeks after his arrest he was continuously transferred from place to place, handcuffed to another prisoner. He was never informed as to charges against him. He added that there never was an indictment or trial.

After being taken successively to Limerick and Cork, the witness said he was removed to a war sloop lying off Cork and with 34 other prisoners was cast into the hold of the vessel, where he said he remained for many days in conditions which he described as harrowing. There was no ventilation, he said, and no means of keeping the place sanitary. Suddenly, then, Morgan went on,

W. M. SLOANE HEADS AMERICAN ACADEMY OF ARTS AND LETTERS

Lorado Taft, Booth Tarkington, Childe Hassam and David Jayne Elected to Membership.

NEW YORK, Nov. 18.—William M. Sloane, historian, and former chancellor of the American Academy of Arts and Letters, was elected to succeed the late William Dean Howells as president of the Academy here yesterday. No chancellor was elected, but it was said the work of the office probably will be carried on by Dr. Nicholas Murray Butler, president of Columbia University, until an election is held.

Lorado Taft, sculptor; Booth Tarkington, author; Childe Hassam, painter, and David Jayne Hill, publicist, were elected to membership in the academy, which is limited to 50.

ONE KILLED, SCORE WURT IN COLLAPSE OF STEEL BUILDING

Many Other Workmen Buried In Debris When Frame of School Collapsed.

INDIANAPOLIS, Nov. 18.—Three school workmen engaged in erecting a four-story building at the Elmerich Manual Training High School here were buried beneath tons of steel and brick today when the structure collapsed shortly before noon, but only one person is known to have been killed. More than a score were hurt, some perhaps fatally, while as many more escaped practically unhurt.

GOV. GARDNER DECLINES OBREGON INVITATION TO INAUGURATION

Special to the Post-Dispatch.
 JEFFERSON CITY, Mo., Nov. 18.—Gov. Gardner today received and declined an invitation to the inauguration of President-elect Obregon of Mexico.

he was again transferred, this time to Wornwood Scrubs Prison in London. While he was there his 5-year-old son died in Thurles, but he said he was denied the privilege of attending the child's funeral.

Folk Declines Chairmanship.
 Former Governor Joseph W. Folk of Missouri has declined the chairmanship of the inquiry commission and also has withdrawn from membership. His letter, made public today, said that "despite the recognition as 'counsel for the Zagreb Commission, representing the people of Egypt,' made it 'inappropriate' for him to serve on the commission."

He said that the investigations of self-government in Ireland, which he had been invited to attend, were "beyond the scope of his duties as governor."

The British embassy will not be represented at the commission's hearings, formal declaration of the commission's invitation having been forwarded by the embassy yesterday to Oswald Garrison Villard of New York, editor of the Nation, who appointed the Committee of One Hundred.

In declining to send a representative to the settlement of the dispute, the embassy declared it could not approve the purposes of the inquiry, and expressed the belief that the only result would be the spreading of propaganda.

MacSwiney's Widow and Sister to Sail for America Nov. 24

LONDON, Nov. 18.—Mrs. Terence MacSwiney, widow of the Mayor of Cork, will be accompanied to the United States by Mary MacSwiney, who obtained a passport yesterday. They are leaving Cork immediately, and will embark at Queenstown, Nov. 24. The health of Mrs. MacSwiney is declared to have improved, though she suffers from spells of extreme depression.

CITY CONTRACTS FOR 150,000 TONS OF COAL

Bids of Two Companies Accepted for Year's Supply at Cost of \$500,000.

The Municipal Board of Standardization today let the contracts for the supply of all the city coal for a period of a year, amounting to nearly 150,000 tons, to cost about \$500,000. The difference between Comptroller Nolte and Supply Commissioner Thomas over the award to a company which used a regular bid and one which used a commercial contract form was settled by mutual agreement of the board.

The Board of Standardization consists of Nolte, Thomas and President Kinsey of the Board of Public Service, which made Kinsey's the deciding vote. The meeting was held in Nolte's office, for two hours, and was marked by a series of verbal tiffs.

Awarding of the contracts does not constitute a final settlement of the matter, since the two companies may be unwilling to accept the contracts under the conditions imposed.

The Board of Standardization consists of Nolte, Thomas and President Kinsey of the Board of Public Service, which made Kinsey's the deciding vote. The meeting was held in Nolte's office, for two hours, and was marked by a series of verbal tiffs.

A note hinting at suicide, signed "R. D. Scott," and a brown handkerchief were found pinned to a railing on the north side of the Free Bridge at 11 o'clock this morning, a few minutes after Adolph Bressler of 1209 Dolman street, a street sweeper, saw something go over the side of the bridge and into the river.

The note requested that "Lillian, room 402, Laclede Hotel," be notified. Miss Lillian Stanley, who occupies that room, told the police the handwriting in the note was that of Corp. Raymond D. Scott of Jefferson Barracks, to whom she was engaged to be married.

NOTE INDICATES MAN ENDED LIFE IN RIVER

Letter From Missing Soldier Found Pinned to Handkerchief on Free Bridge.

A note hinting at suicide, signed "R. D. Scott," and a brown handkerchief were found pinned to a railing on the north side of the Free Bridge at 11 o'clock this morning, a few minutes after Adolph Bressler of 1209 Dolman street, a street sweeper, saw something go over the side of the bridge and into the river.

The note requested that "Lillian, room 402, Laclede Hotel," be notified. Miss Lillian Stanley, who occupies that room, told the police the handwriting in the note was that of Corp. Raymond D. Scott of Jefferson Barracks, to whom she was engaged to be married.

At Jefferson Barracks it was said that Corp. Scott, who was a member of the band there, was missed at 4:30 p. m. yesterday when he failed to appear for parade, and that he had not been seen at the barracks at any time today. It was said that he had been complaining of ill health.

Miss Stanley said that she had been engaged to Scott for four months, and that they had planned to be married in December. She said that she met him when she was studying to become a nurse at the Liberty Hospital, Pendleton avenue and Delmar boulevard, and that he told her he was living in Iowa. She said she saw him Tuesday and that he said he would call her up Wednesday, but that he failed to do so.

Bressler told the police that he was not certain that it was the form of a man he saw go over the side of the bridge, as he had attention was attracted to something else at the time, but that just before he saw the object go into the river he observed a man walking east about 200 feet from the west shore.

FULL PUBLICITY FOR AFFAIRS OF LEAGUE PROMISED AT GENEVA

Continued From Page One.

and avoid the danger of "organization of a rival league."
 He said that a formula must be found to permit the United States to come in, and demanded the league be made more democratic by electing all the members of the council in the assembly, instead of allowing the big Powers to name a majority of them as at present.

This sounded like a formal notice to the big Powers that they will encounter opposition from the smaller nations if they insist upon maintaining their nomination council.

Lord Cecil Reviews Work.
 Lord Robert Cecil, speaking in behalf of Gen. Smuts, a member of the South African delegation, reviewed the entire report of the council to the assembly, and pointed out the results obtained. He declared that the principles which are the basis of the league will be complete publicity, not only for the affairs of the league, but for world affairs generally, in order to bring public opinion to bear upon abuses or infractions of the principles which are the basis of the league.

He commanded the greatest attention from the assembly, particularly when alluding to the statement attributed to President-elect Harding, that the league was dead. He said that the report of the council showed it was very much alive.

After sustained applause for Lord Robert, many of the delegates turned toward the seats of the French delegation, as it had been said that M. Viviani probably would follow him, but the former Premier of France was awaiting another opportunity.

WANTS AMATEUR GOLF TITLE MATCH HELD HERE

St. Louis Country Club Has Already Taken Steps to Have Contests on Its Links.

The board of governors of the St. Louis Country Club has decided to ask that the amateur golf championship matches of next year be played on the club's links, Price and La Due roads, St. Louis County. The amateur championship is the big event of each season and no St. Louis club has ever made a bid for it.

Informal notice that the St. Louis Country Club would be actively interested in having the matches played here has been informally conveyed to the United States Golf Association, whose president is G. H. Walker of New York, formerly of St. Louis. While in St. Louis, Walker was an active member of the St. Louis Country Club and he retains his membership and his interest in its welfare.

A member of the club today told Walker had suggested that St. Louis should have next year's championship matches, and that the club should be played on the links of the St. Louis Country Club. In order to obtain the championship matches it is not necessary for a club to make any specific financial guarantee, the principal requirement being that it be suitable for playing title contests.

nations if they insist upon maintaining their nomination council.

INDIANS WANT BE PLACED UNDER LAWS OF STATE

Resolutions Committee Declines Bureau System of the Government.

CONGRESSMEN GET RESOLUTIONS TO MEET

Delegates to Meet Give Show at School Tonight—Monks' Mound To

The Resolutions Committee of the American Indian Society at its annual convention at the Planters Hotel, this morning adopted a resolution which was sent to the delegates after noon, condemning the Indian Bureau system of the Government "to place under the laws of their states and thereby give the opportunity to follow the pursuits unhampered and by the most malignant American system of suppression of the Indian Bureau."

The resolution states a continuation of the Indian policy for the American people, misrule and misgovernment, and that "a calm, unbiased survey of actual conditions on the reservations under governmental policy and the results in discipline, full of pathos and agony, injustice and inhumanity."

"There appears to be termination in the institution of the United States known as the Indian consisting of 7000 people responsible for the abject conditions of the Indians, and perpetuate itself upon the reservation of the Indian situation, but in effect to the utter degradation of a nation of people," the resolution stated.

Rev. Father Philip Gorman, following the meeting, said that the committee was drawn in accordance with the resolution expressed by the delegates, and that he believed the resolution unanimously adopted by the delegates, if adopted, the resolution would be distributed to all members of the committee.

Another resolution was proposed by the committee, which was a pro-removal of Indians long-established homes and the reservation of water-power projects on the consent and wishes of the Indians.

Items of Interest

A Gift for Dad

—d deserves more consideration than it is sometimes given. He so cheerfully makes it possible for you to give gifts to all your friends. Perhaps he would like a warm, wooly Bathrobe, a Smoking Jacket or Lounging Robe. We have them here. Just a few adroit questions and you will learn his preference. Make your selection early, while our selection is new and complete. Men's Furnishing Shop—First Floor.

"Tanglewood Tales" is one of the interesting books featured for Children's Book Week. Every child should own a copy, by Nathaniel Hawthorne, illustrated by Milo Winter. Others that we particularly advise are "Poems of Childhood—A Child's Garden of Verses" and "The Bookshelf for Boys and Girls." Scores of others are here. Make holiday selections early. The Book Shop—Sixth Floor.

Silk, Satin, Calico, Rags and the choice for underthings is usually silk. From tempting Chemises to boyish knickers, not one delightful detail has been overlooked. Any girl "just loves" the sheen of their silky texture, and two or three names might be crossed off the gift list here. Not such expensive gifts—at that. The Lingerie Shop—Third Floor.

Japanese Screen which stands out effectively amidst its gorgeous fellow screens, is covered with rich black satin; pink and white chrysanthemums and dainty fluttering birds are embroidered in shaded effects which are truly marvelous. Japanese Art is depicted here in its most attractive form. The Art Shop—Fourth Floor.

A Pair of Lacquered Boxes are uniquely placed on a lacquered tray. These are for your cigarettes, your own particular brand is kept quite separate from those that your guest prefers. Or if you prefer, there are prettily hand-carved boxes in dark wood, with tray to match. The Gift Shop—Fourth Floor.

Your Baby—at Two is just a morsel of sweetness—too cunning and dear to be described. All his needs are answered here. Soft, warm undies, tiny woolen socks, rompers and dainty handmade things of exquisite simplicity. From dawn till bedtime—all his hours have been considered. For naptime, dainty silken quilts, hand-quilted in pink or blue; many gift-hints are here; come in and see for yourself. The Baby Shop—Third Floor.

Patty Paper Doll "Come dress me quickly, for I'm a doll. You're glad to know I've brought my clothes. I'll never break if I should fall, For I am Patty Paper Doll." Patty brought her red coat and her favorite puppy. She is so quaint and unusual, any little girl will be glad to welcome her. Stationery Shop—First Floor.

Children's Book Week November 15 to 20 "More Books in the Home"

THIS wisely-established custom of special observation of Children's Book Week comes just a few short weeks before Christmas. Preparations have been made for months in our Book Shop, in order that you might have a most comprehensive selection from which to choose for the kiddies' holiday books.

RESTORATION OF COURTHOUSE TO BE ARCHITECTS' TOPIC

Plans for Strengthening Historic Structure to Be Discussed at Institute Convening Tomorrow.

MEMBERS FROM ALL PARTS OF COUNTRY

Registration of Architects and Civil Engineers, Under State Laws, for Co-operation to Come Up.

Registration of architects and civil engineers under State laws in order to permit an interchange of functions will be the chief topic of discussion of the officers and board of directors of the American Institute of Architects when they meet here tomorrow and Saturday. A topic of local interest on which there is expected to be informal discussion is that of steps towards the restoration of the courthouse at Broadway and Market streets, to assure its continued use.

The directors of the Institute are meeting from time to time in various parts of the country in order to be of the greatest possible service to the membership and at the meeting here not only the members of the St. Louis chapter but members from Nebraska to Ohio and Minnesota to the Gulf will be present. A program of addresses has been arranged for Saturday morning. All meetings will be in the assembly room of the Chamber of Commerce.

Plan to Restore Courthouse.
There is discussion among architects here of the advisability of planning restorative measures for the historic courthouse. Wilbur T. Trueblood, secretary of the St. Louis chapter, declared. He said it is an admitted fact that the structure as it now stands is not of long durability, but that proper measures can be taken now to modernize and strengthen the building.

Trueblood said there has been discussion lately among members of the bar concerning the possibility of abandoning the building, but he decried such a plan, pointing out the artistic and historical value of the building. He said it could be arranged for better lighting, heating and comfort.

He told how a St. Louis architect years ago effected the restoration of the State Capitol at Jackson, Miss., by the process of placing covered steel columns within the building and throwing the weight onto them, relieving the "bearing" brick walls. He did not discuss the technical problem presented by the courthouse here.

Trueblood and others expect to discuss the idea with the visiting architects.

John Lawrence Mauraw, a past president and Fellow of the Institute, today told of the plan for registration of architects and engineers. "Registration is practiced in New York State with good results," he said. "In Illinois there is a system of licensing which has detrimental effects and almost tends to unionize the profession. We would like to have uniform laws in all the States, permitting the interchange of our functions along lines similar to the New York idea."

Engineers Co-Operating.
"We want it possible for architects, without the waste of time, energy and money, to do the work ordinarily done by engineers if the need is presented and they are qualified. We want engineers to be enabled to design and build as architects if their plans will pass the usual inspection. The engineers are co-operating with us and one of them will address us Saturday evening on the idea."

The headquarters of the board of directors of the Institute is at Washington, D. C. Among the nine members of the board are two St. Louisans, Ernest J. Russell and William B. Ittner. Russell is also on the executive committee. Henry H. Kendall of Boston is president of the Institute. Meetings of the board are private, but the Saturday meeting is open. The building, labor and housing situations are among the subjects to be discussed then.

DOUBLE FUNERAL FOR COUPLE

Woman Died Last Night, Husband on Monday.

Double funeral services will be held tomorrow afternoon at 3:30 o'clock at St. Luke's Evangelical Church, Tennessee avenue and Victor street, for Henry C. Belnke, 72 years old, of 3905 Magnolia avenue, and his wife, Mrs. Mary C. Belnke, 66. The former died Monday afternoon and Mrs. Belnke died last night.

Mrs. Belnke had been ill for several weeks, during which time her husband assisted in caring for her. He was ill but a short time before he died. He was a retired contractor. Burial will be in Valhalla Cemetery. The surviving children are Mrs. Meta C. Linder, Mrs. Adele Neslage, Lydia, Frank C. and Belmont W. Belnke.

F. M. HAMPTON TO WED SOUTH CAROLINA GIRL

Engagement to Miss Elizabeth Wade Williams Announced—
Date Not Set.

ANNOUNCEMENT has been made of the engagement of Miss Elizabeth Wade Williams, daughter of Mr. and Mrs. Henry Porter Williams of Charleston, S. C., to Foster Martin Hampton, of the wedding has not been set. Mr. Hampton has made his home in St. Louis for about a year, having come here from Fordyce, Ark. He is a member of the St. Louis Country Club and resides at 5801 Kingsbury Court. He is a graduate of Yale and served as a Lieutenant in the navy during the war. Miss Williams was educated at Springdale, Chestnut Hill, Philadelphia.

Social Items

The marriage of Miss Marie Odile Dodge and John Bruce Stewart was solemnized at 11:30 o'clock this morning in the Blessed Sacrament Chapel of the St. Louis Cathedral. The ceremony was performed by the Rev. Father Stritch, S. J. Miss Lois Dodge, a sister of the bride, was maid of honor, and Frank Stewart of Richmond, Va., brother of the bridegroom, was best man. The other attendants were Mrs. John E. Page Nelson, Miss Blanche Turner Mac Tracy and Paul Gleason. The bride's gown was of ivory brocade with an overskirt of chiffon and old rose point lace. She wore a Russian headpiece of rose point lace edged with orange blossoms from which the tulle veil fell to the end of the court train, where it was held by clusters of orange blossoms. She carried a shower bouquet of white roses and lilies of the valley. Her attendants were gowned in peacock blue chamoisee trimmed with silver lace, and black plumed hats of panne. They carried Russell roses. A reception for the relatives and a few friends followed the ceremony at the home of the bride's parents, Mr. and Mrs. Ernest C. Dodge, 4149 West Pine boulevard. The couple will spend their honeymoon in the East, and will be at home after Dec. 15 at the Ranelagh Apartments. The bride was educated at the Sacred Heart Convent and at Washington University, and was a maid of honor at the Veiled Prophet's ball in 1914. Mr. Stewart is the son of Mr. and Mrs. Andrew F. Stewart of Richmond, and has resided in St. Louis for several years.

Miss Marguerite Orthwein of 4387 Westminster place returned last week from New Orleans, where she was maid of honor at the wedding, Nov. 4, of her cousin, Miss Lucille O'Kelley, daughter of Dr. and Mrs. J. Phares O'Kelley, and T. Roy Francis.

Dr. and Mrs. Willard Bartlett and family will take possession this week of their new home in Westmoreland place.

Mrs. Walter Medart of 5406 Delmar boulevard was hostess today at her home at a luncheon for 24 guests in compliment to Miss Ethel Breck of Milwaukee, who is the guest of Mrs. Clarence Curby of 4 Washington terrace.

Mrs. Arthur Howell of 5048 Waterman avenue will entertain with a small bridge party next Tuesday in compliment to Miss May Cornwall, whose marriage to William Laughton Jr. of Montreal will take place next month.

Miss Ethel May, whose marriage to Alfred M. Harris will take place next Wednesday, was the honor guest last evening at a dinner dance.

HER WEDDING TOOK PLACE THIS MORNING

Mrs. John Bruce Stewart

for 30 guests with which Mr. and Mrs. W. E. Jordan entertained at their home, 6178 McPherson avenue. Mrs. Sidney Maestre of 4444 Linsell boulevard was hostess yesterday afternoon at her home at a bridge party in honor of the prospective bride and on Tuesday Mrs. Harrison J. Saunders of Kansas City, who is here for the wedding, entertained with a luncheon for Miss Miller, followed by a matinee party at which Mrs. R. E. Fowler was hostess.

Miss Olivia Harbaugh of Chicago, who is the guest of Miss Louisa Moser of 3725 Lindell boulevard, will be the honoree at a bridge party tomorrow afternoon with which Miss Julia Fay Carton will entertain at her home, 4484 Westminster place. Miss Doris Drummond, 5339 Pershing avenue, will entertain Tuesday with a bridge party in honor of Miss Harbaugh.

STOLEN TRUST COMPANY AUTOMOBILE IS FOUND

Empty Pocketbook Reported Taken by Highwaymen on Seat of Ford Runabout.

An automobile belonging to the Mercantile Trust Co., reported stolen by highwaymen from Warren Deutman, 26 years old, of 6125 Michigan avenue, a collector for the company, at noon yesterday, when two robbers held him up on Euclid avenue, near the Terminal Railroad tracks, was found abandoned near 2514 Salisbury street at 7 o'clock last night. Deutman's bill folder, containing a check for \$25, some receipts and other papers belonging to the bank, was in the machine.

Deutman reported yesterday afternoon, when he met policemen at Florissant and Euclid avenues, that he had been driving north in Euclid avenue when two men, one waving a red handkerchief as a danger signal, had "flagged" him, causing him to stop. One of the men then drew a revolver, he said, and ordered him to hand over his money. He handed the bill folder, containing between \$250 and \$300 and the check to the men, he said, after which they made him get out of the machine, into which they climbed and drove away. He walked to Florissant avenue to get a telephone to call the police. The money represented collections for the bank, he said.

ACTRESSES ATTACKED BEFORE THEIR DEATH, POLICE BELIEVE

Man Admits He and Another Got Out of Auto With Women in Chicago Park.

By the Associated Press.
CHICAGO, Nov. 18.—Lawrence and Harris Jorgenson, two of the three men under arrest in connection with the deaths of Marie Ramsey and Lillian Thompson, actresses, whose bodies were found in Grant Park on Sunday, last night signed statements which led the police to believe the two women were subjected to an attack just prior to their death.

The belief of the police and of the coroner that death was due to alcoholism and exposure was not changed by the stories of the two Jorgensons, however, it was said. Lawrence Jorgenson told the police, according to copies of the statements which were given out, that he and another man named McCarthy, who hitherto was unmentioned in the investigation, attacked the women in Grant Park in view of the two Jorgensons, who were said to have remained in the automobile, in which the four men and two women had been "joy riding." Brumberg, according to the police admitted, that he and McCarthy alighted from the machine with the women, but said that only the woman with McCarthy had been attacked. Brumberg is under arrest and McCarthy is being sought. It was reported that he had taken a

boat for Buffalo, N. Y. The Jorgenson statements said that the two brothers and Brumberg went riding Saturday night in an automobile which they had borrowed. On a North Side residence street they noticed Miss Thompson staggering and took her in the car. The statements said. At her request they drove around a corner and got McCarthy and Miss Ramsey. After visiting some cabarets they went to Grant Park.

NINE PERSONS HELD UP IN FIVE HOURS LAST NIGHT

Four Robberies in One
Neighborhood and Appar-
ently by Same Pair of
Highwaymen.

Nine persons were held up and robbed between 8 and 11 o'clock last night, four of the robberies being committed in the same neighborhood, apparently by the same two highwaymen.

Richard Hughes, 4201 Enright avenue, was stopped by two men at Whittier street and Delmar boulevard at 7:30 p. m., and at the point of a pistol was marched into an alley north of Delmar, where he was robbed of \$5.

At 10:30 p. m., Earl Russell of 4153 Maryland avenue was held up by two men at Sarah street and Lindell boulevard, forced to walk into an alley south of Lindell and robbed of 50 cents, a stickpin and a watch.

Twenty minutes later two men stopped Mortimer G. Allen of 352 North Whittier street, at Whittier street and Westminster place, backed him into an alley north of Westminster place and robbed him of a purse containing \$5, and a watch.

Robert D. Robinson of 4146 Enright avenue was held up at 10:55 p. m. by two men at Whittier street and Enright avenue and ordered into a hallway nearby, where he was robbed of \$10.

H. S. Taft of 1829 Benton street, manager of a Kroger store at 2165 North Thirteenth street, was carrying \$40 in store receipts to his home when three men stopped him with revolvers on Thirteenth street, between Palm and Branch streets, at 8:30 p. m., and took the money from him.

Joseph Greenberg of 1424 North Thirteenth street was robbed of \$5 and a watch by three men at High and Biddle streets at 9:30 p. m.

Locked in Basement.

Three men entered the drug store of Sam Servant, 916 North Pendle avenue, at 10:45 p. m., and ordered the proprietor and Dr. Lee Vincent of 4224 West Belle place to put up their hands. After taking \$10 from the physician the robbers ordered them into the basement and locked the door. After remaining in the basement until they heard the robbers depart Servant and Dr. Vincent climbed to the sidewalk through a window. Servant missed \$23 from the cash register.

Bernard Rouge, of 1815 Cass avenue, refused to put up his hands when ordered to do so by a highwayman with a revolver at Eighteenth street and Cass avenue at 8 p. m. Instead he struck the robber on the face. The robber retaliated with a blow on Rouge's nose and then the two ran in opposite directions.

Howells' Fortune Goes to Children.

NEW YORK, Nov. 18.—The bulk of the estate of William Dean Howells, the author, appraised yesterday at \$1,250,000, was bequeathed to his son and daughter, John and Mildred Howells. Future royalties on his books are valued at \$10,000.

NO VERDICT IN POISON INQUIRY

Coroner Falls to Determine Cause of Miss Volk's Death.

A Coroner's inquiry today into the case of Miss Mildred L. Volk, 21 years old, of 1040 Blenden place, a milliner, who died at 7:30 a. m. yesterday from poison, failed to determine whether the poison was taken accidentally or intentionally. The

poison was alcohol and had been used for spraying purposes. Dr. John H. Simon of 1201 McCausland avenue testified that he had been treating Miss Volk and had prescribed a medicine which bore a resemblance in color to the poison which she drank. Miss Volk's father, Patrolman Edward Volk, testified that the bottles of medicine and poison were together in a medicine chest, and that he believed his daughter had mistaken the poison for the medicine.

Oregon Invites Gov. Stephens. SACRAMENTO, Cal., Nov. 18.—Gov. William D. Stephens has received a telegram from General Obregon, president-elect of Mexico, inviting him to be present at the presidential inauguration at Mexico City December 1. General Obregon said he was particularly desirous of having the California governor present because his wife was educated in California and his two eldest sons are attending the State university.

36 Negro Voters; 103 Votes Cast.
BENTONVILLE, Ark., Nov. 18.—White people in this section of Arkansas are inclined to frown upon persons of color as residents, and as a consequence, there are slightly more than 100 negroes in Benton

County, all of them residents of Bentonville. But J. H. Blunt, negro Independent Republican candidate for Governor of Arkansas, received 103 votes in Benton County. A recent check revealed that of the negro residents of the county only 26 of them were qualified to vote Nov. 2.

Reliable

RB Cigars have constantly proved that reliability is a strong bid for popularity. More men are smoking them each day because they are the same now as when their unique quality and workmanship first attracted national taste. Due to the square deal policy behind them you can still buy an R-B Londres with its imported Sumatra wrapper, full-flavored long-leaf filler for 8 cents—and it's seasoned just right for good smoking.

PRODUCERS' STRIKE TO FIGHT FALLING PRICES IS URGED

Nation-Wide Call Sent Out by National Farmers' Union, Representing 800,000 Members.

By the Associated Press.
KANSAS CITY, Mo., Nov. 18.—A nation-wide producers' strike to combat the falling prices of farm products is urged in a call sent out today by the National Farmers' Union to its local unions throughout the country.

The call, in the form of a resolution adopted at the national convention of the organization here, has gone forward to secretaries of local branches of the organization, which represent producers of grain, cotton, wool and livestock, said to number 800,000.

The proposed strike is urged in retaliation for what the convention considered abnormal deflation in prices of farm products, through which it was asserted American farmers have been robbed of one billion dollars in reduced value of products now on hand. All farmers are appealed to hold this year's production from the markets until "profit-making levels" are restored.

Manipulation Charged.

The farmers also charge market manipulation with responsibility for a collapse in prices of farm products. "Market manipulation, without any possible relation to the law of supply and demand, has robbed the American farmer of more than \$1,000,000,000 through reduction in values of crops and cattle now on hand," a resolution adopted read. "We urge all farmers to withhold this year's production from the markets until prices are restored to a profit-making level."

The action of the National Farmers' Union is in line with a "wheat strike" called several weeks ago by the Wheat Growers' Association of the United States. Delegates asserted a considerable quantity of this year's wheat crop was being held off the market by farmers. Reduction of production in the future, it threatened, "unless the prices of our products are fairly readjusted to the end that we may obtain just returns for our labors and investments" in another resolution approved by the convention. Officials of the organization point out that members are not under obligation to obey the terms of the strike, but express the belief that such a movement will be effective.

Conference in St. Louis.

A conference of representatives of all farmers' organizations of the country has been called to meet in St. Louis, Dec. 18, to consider the creation of a national farm marketing board.

The resolutions were adopted in executive session last evening and announced later by officers of the organization. Adoption was preceded by considerable discussion, officials said.

Concerning the St. Louis meeting to create a national farm marketing board, Charles S. Barrett of Union City, Ga., who was elected president of the union for the fifteenth consecutive time, said:

"The purpose of the meeting is not to form or create a corner, but to find a reasonable, rational way to market our products. The urban population should welcome such a step, as it is the instability of the market that has caused inflated prices for them and deflated prices for the producer."

About 1000 delegates, representing 30 or more organizations, are expected to attend the St. Louis meeting, Barrett said, adding that there probably would be representatives from many state and farmers and co-operative organizations present.

Other resolutions adopted at the executive session, officials said, included one urging strict enforcement of the immigration laws, and deportation of aliens seeking to overthrow the Government. Legislation for the recall of United States Senators and Representatives also was urged.

PIMPLY? WELL, DON'T BE
People Notice It. Drive Them Off With Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights. Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them. Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating. No one who takes Olive Tablets is ever cured with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face. Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. Life and Joy.

INTEREST SHOWN IN DEBS' VOTE IN CITY FOR PRESIDENT

Expected That Socialist Leader's Total Will Run Ahead of Local Candidates of Party.

The official count of the St. Louis vote for candidates for President will be announced tomorrow morning, it was said at the Election Board's office today. There is particular interest in the vote cast for Debs, Socialist candidate for President. It has been expected that votes for Debs here will be somewhat larger than that cast for local candidates, which was less than 10,000.

The vote for local officials, three members of the Board of Aldermen, and the St. Louis vote for State candidates, and for members of the Legislature, was announced today. The vote for Governor, Lieutenant-Governor, United States Senator, members of Congress and Circuit Judges was announced previously.

Watts Led in City.
The figures show that Thomas Watts, Republican candidate for Alderman in the Seventeenth Ward, received the largest plurality at the city candidates. Members of the Board of Aldermen are voted for the entire city. Watts' plurality, William G. Alexander, Democrat, was 58,518.

Charles E. Mohrstadt, Republican candidate for Sheriff, was elected with a plurality of 55,444 over Joseph Dickmann Jr., Democrat. George Melinger, Republican candidate for Ninth Ward Alderman, third with a plurality of 55,925.

INTEREST SHOWN IN DEBS' VOTE IN CITY FOR PRESIDENCY

Expected That Socialist Leader's Total Will Run Ahead of Local Candidates of His Party.

The official count of the St. Louis vote for candidates for President will be announced tomorrow or Saturday, it was said at the Election Board's office today. There is particular interest in the vote cast for Debs, Socialist candidate for President. It has been expected that the vote for Debs here will be somewhat larger than that cast for Socialist local candidates, which was less than 10,000.

The vote for local officials and three members of the Board of Aldermen, and the St. Louis vote on state candidates, and for members of the Legislature, was announced today. The vote for Governor, Lieutenant-Governor, United States Senator, members of Congress and Circuit Judges was announced previously.

Watts Led in City.
The figures show that Thomas S. Watts, Republican candidate for Alderman in the Seventeenth Ward, received the largest plurality among the city candidates. Members of the Board of Aldermen are voted for by the entire city. Watts' plurality over William G. Alexander, Democrat, was 58,518.

Charles E. Mohrstadt, Republican candidate for Sheriff, was second with a plurality of 16,644 over Joseph Dickmann Jr., Democrat. George Meisinger, Republican candidate for Tenth Ward Alderman, was third with a plurality of 55,925, and

Edward Kuhs, Republican candidate for First Ward Alderman, had 55,345. Other local pluralities were less than 55,000. The total city vote for Governor was 251,733, which was 59.4 per cent of the registration, 315,018.

The three members of the Board of Aldermen were elected to fill vacancies. They will take their seats at tomorrow evening's meeting. The new Coroner, Dr. Edward Richter, will also qualify for office within a few days. Other newly elected officials will take their places Jan. 1.

In the city vote on State offices, the largest plurality shown was that of Auditor Hackmann, Republican, for re-election. His plurality over G.

H. Middelkamp, now State Treasurer, was 69,959. The Post-Dispatch urged voters to support Hackmann on his record as Auditor, and as a member of the State Board of Equalization, and to defeat Middelkamp on his record. The next highest plurality was that of Charles U. Becker, Republican, for Secretary of State, over John L. Sullivan, who was running for re-election, and whose defeat, on his record, was also urged by the Post-Dispatch. Becker led Sullivan here by 66,697. Both Hackmann and Becker had pluralities far in excess of that of Arthur M. Hyde for Governor, who led by 51,110 in St. Louis. Hiram Lloyd's

MAY STERN & CO.

Corner 12th and Olive

ARGUMENT IN LIQUOR TEST CASE IS HEARD

Judge Faris Expresses Doubt Supreme Court Removal Decision May Apply Generally.

Judge Faris, from the Federal bench, today, expressed doubt that the recent decision of the United States Supreme Court permitting the removal of certain liquor from a warehouse in New York City and its transportation to the owner's home is to be construed as permitting promiscuous removal of liquor from warehouses in general.

His expression was during the arguments of attorneys on the motion of the Government to dismiss the suit of Charles Cornell, who asks that the Internal Revenue Collector be instructed to accept the revenue tax and deliver to him a barrel of liquor held in a bonded warehouse at Grand and Laclede avenue.

Judge Faris' statement: "I am in doubt whether the Supreme Court decision in the Street case (the New York case referred to) could be applied in this case," Judge Faris said. "I noticed in a careful reading of the opinion that the Supreme Court was careful to limit its opinion to a specific set of facts. In that case, the proof showed that the owner of the liquor had purchased it before constitutional prohibition became effective, and had stored it in a private warehouse. In a room to which he had exclusive entrance and egress.

"I am not clear on the question as to whether the same opinion would be held in the case of a bonded warehouse or under the facts as set forth in this case."

Former Circuit Judge Glendy B. Arnold, attorney for Cornell, then raised the allegation of confiscation made in behalf of his client, that the retention of liquor by the Government was confiscation without due process of law.

Reference to Confiscation. Judge Faris replied, "but unfortunately, the Court must construe the law as it is written. Any time any law limits the use of property, that is technical confiscation. However, there is nothing to prevent such confiscation unless the natural law be held higher than constitutional law."

Judge Faris took the motion under advisement. As he descended from the bench, attorneys gathered around him. "It would be fine if we could decide this case in the fashion of a certain justice of the peace I know," Judge Faris said, "tail in favor say I."

"If that were the case, I believe the Judge would vote with us," Arnold remarked.

"The Judge is frank to confess," Judge Faris replied, "a lack of sympathy with a great many provisions of the constitutional amendment and the Volstead act."

Western and Southern Senators Active; South Carolina Senator Criticizes Secretary Houston.

WASHINGTON, Nov. 18.—Senators from the Western and Southern states are considering urging legislative action to revive the War Finance Corporation. They said today this was the only agency which could give immediate help to agricultural interests in the "appalling" situation resulting from the sudden fall in prices.

A conference of Western Senators and Representatives to discuss the matter will be called, it was stated, when Chairman Gronna, North Dakota, of the Senate Agricultural Committee, arrives in Washington.

In an appeal to President Wilson to restore the corporation, Senator Dial of South Carolina wrote that he had discussed the matter with Secretary Houston, and added: "I must say that he does not comprehend in the least the situation or he does not desire to assist the American producer, and I feel that it is absolutely useless for anyone to confer with him further on the subject."

QUICK RELIEF FROM SORE THROAT

Formamint Tablets Afford Protection Against Infection.

PEOPLE nowadays recognize that a sore throat is a danger spot, as the inflamed tissues form an ideal soil for germs to multiply.

With gargles it is impossible to keep a sore throat under anything like effective treatment. With Formamint, whether you are at work, or in crowded car, shop, theatre or church, you can dissolve, now and then, one of these pleasant tasting, powerfully antiseptic tablets in your mouth.

An effective antiseptic is released and, carried by the saliva, continuously bathes the tissues, checks germ growth and soothes the throat, possibly preventing laryngitis, tonsillitis, "du." Relieves hoarseness. Helpful for singers, actors, smokers, speakers, lecturers, etc. Children like them. 60¢ at all druggists.

HAITIAN TESTIFIES HE SAW MARINE KILL 3 NATIVES

Direct Charge of Shooting of Prisoners Made Against Former Corporal Lang, Now Resident of Hinche.

SAYS EXECUTIONS FOLLOWED ATTACK

Courtmarshal Gives Accused Time to Obtain Witnesses and Employ Counsel—Other Testimony.

By the Associated Press.

PORT AU PRINCE, Haiti, Nov. 18.—The direct charge that Freeman Lang, formerly a Corporal in the Marine Corps and a Lieutenant in the gendarmerie, killed three Haitian prisoners at Hinche in 1917, was made yesterday before the court of inquiry investigating the activities of the American marines in Haiti, by Adolph Bourgot, a native. Bourgot, who at the time was acting as corporal in the gendarmerie, testified he witnessed the execution of the prisoners, which occurred immediately after a night attack.

He testified that "during the attack, which lasted half an hour, the three Haitians were in prison. When the attack ended, Lang ordered them out. Shooting the first one in the back. The others were brought out singly, meeting the same fate in the same way. I was in the prison yard with other natives seeking safety."

Bourgot testified clearly and deliberately. Answering a request by Judge Advocate Maj. Jesse F. Dyer to identify Lang, if present, the witness rose and pointed across the table at Lang. At this juncture the court retired, subsequently announcing it would give Lang the right to question Bourgot, obtain witnesses and employ counsel.

Lang, who was formerly a resident of Los Angeles, Cal., and now is engaged in business in Hinche, started to question Bourgot but quickly objected to the translator, declaring he wanted a white man. The court granted the request, adjourning Lang's testimony until tomorrow.

Lieutenant-Colonel Hooker described the January attack on Port au Prince, saying 66 had been killed. He declared the attack was made in order to bolster the bandit cause.

Russian Tells of Killings.
Col. Louis Little, commanding the field forces, testified that the only complaint from President d'Artigues-nave of Haiti had been investigated and found to be incorrect. The President charged that a drunken marine doctor had assaulted a Judge. Col. Little declared an investigation revealed that a hospital apprentice while on liberty became intoxicated, assaulted and slightly injured a Judge's clerk.

Harris Lifschitz, a Russian, who has become naturalized, testified to having witnessed two killings of natives by the occupational forces, but was indefinite as to dates, places and names. Another civilian was examined and said he was without knowledge of murders, although Judge Advocate Dyer asserted the man had previously given him damaging testimony.

POLICE BOARD TO OPPOSE PAROLE OF RAY H. CUMMINS

Prisoner Characterized as "Exceptionally Resourceful Accomplice of Criminals."

Members of the St. Louis Police Board will ask the Board of Pardons not to consider a petition recently filed in Jefferson City for the parole of Ray H. Cummins, former secretary of the Police Relief Association, who was sent to the penitentiary 14 months ago to serve a 10-year sentence following his conviction on a charge of burglary.

President Mansur of the Police Board characterized Cummins as an "exceptionally resourceful accomplice of criminals" and said that it would be an act of indiscretion to release him from prison.

Cummins was convicted on the testimony of George Franke, who testified that while Cummins was a policeman he protected him from prosecution for burglary and shared with him in a division of the proceeds of many burglaries.

U. R. COLLECTS \$10,000 ON J. W. SAMUEL'S BOND

Amount Listed in Receipts for September in Report of Receiver.

Among the receipts listed in the monthly reports of Rolla Wells, receiver for the United Railways Co., filed in the United States District Court today, is the sum of \$10,000 collected on the fidelity bond of James W. Samuel, former assistant treasurer of the company, who is awaiting trial on a charge of having embezzled about \$30,000 of the company's funds.

The report covers the month of September. It shows that on Aug. 1 the cash on hand was \$220,172.09 and that on Sept. 30 the cash on hand was \$661,256.61, the difference in the amounts being explained by the fact that in September the sum of \$2,285,600 was spent in redeeming receiver's certificates which fell due Sept. 2 and for which money had been set aside from the August receipts.

The total receipts for September were \$4,660,583.01, of which the largest items were \$724,544.28 conductors' remittances and \$963,817.32 from the sale of tokens.

The redemption of receiver's certificates was the largest disbursement item. The smallest was \$185 for the corporate expenses of the company. The reduction in this amount is due to the elimination by court order of the salaries of Richard McCulloch, corporate president, and H. S. Priest, corporate counsel.

In September the company paid \$29,420.15 in back wages and \$529,993.88 accrued wages.

MALNUTRITION "ARCH-ENEMY" OF CHILDHOOD, TEACHER SAYS

By the Associated Press.

SEDALIA, Mo., Nov. 18.—Maud A. Brown, supervisor of hygiene in the public schools of Kansas City, Mo., in an address on "Constructive Health Work in the Schools," before the State conference of social welfare workers, here this week, declared "an alarming percentage of malnutrition exists among our school children" and that "where educators take on the efficiency methods of construction engineers we will get results in wiping out its arch-enemy of childhood."

"The causes of malnutrition," Miss Brown said, "are many, complicated and in some cases, obscure. It is difficult to understand why one child in a family should be undernourished while others are in prime condition. Most of the malnutrition of American children is due to a faulty health program."

"Malnutrition is that departure from health spoken of when a child is referred to as being 'run down,' 'delicate,' 'not very strong,' 'peaked,' 'undernourished.'"

The speaker declared two elements are of pre-eminent importance in helping a child to overcome malnutrition—sleep, "because increase in hours of sleep brings immediate gain in weight," and milk, "a quart a day should be the minimum for an undernourished child."

Charge Against Industrial Board

By the Associated Press.

SPRINGFIELD, Ill., Nov. 18.—Backed in her protest by various women's organizations of the city, Miss Harriet Reid last night appealed to the National League of Women Voters, charging that the Illinois Industrial Board has withdrawn its requisition for an industrial arbitrator because the Civil Service Commission certified a woman. Examined by the Civil Service Commission and given the highest grade of 93, Miss Reid was certified for appointment last week.

ADVERTISMENT

FIFTEEN YEARS OF BLACK-DRAUGHT

Black-Draught Highly Recommended by Illinois Man for Liver and Stomach Disorders—Used It for Fifteen Years

Singerton, Ill.—"For fifteen years we have used Theodor's Black-Draught, and have not as yet found anything that could take its place," writes Mr. W. F. Rister, of this town, "I have used it for indigestion a number of times, and it gives relief," continues Mr. Rister.

"For sour stomach, a heavy, bloated feeling, it is splendid. And when the liver gets torpid, so that when you stoop and raise up suddenly you feel dizzy, a few doses will set you straight."

"We keep it and use for constipation and the above troubles, and find it most satisfactory. I can recommend it to others and gladly do so. For the number of years I have used Black-Draught now, I ought to know."

In its 70 years of usefulness, Theodor's Black-Draught has relieved thousands and thousands of persons suffering from the results of a disordered liver. And, like Mr. Rister, many people feel that, after using Black-Draught, nothing can take its place.

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils to Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hawking, snuffing, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.

Miss Nilsson's Beauty Secrets

Anna Q. Nilsson, the wonderful motion picture actress, who is writing a series of articles on beauty secrets, soon to appear in this paper, says that a beautiful rosy-white skin and complexion is the very best asset any girl or woman can have. She further states that the best and quickest way to obtain this is to use a simple toilet preparation. It is called "Beauty Secret" and is a wonderful remedy for all skin troubles. It is used by over five hundred thousand discriminating girls and women throughout the country and is rapidly becoming a regular fact. It takes the place of face powder, stays on better and its use cannot be detected. It is specially recommended for dark-skinned women, who, by using it, will get rid of many other facial blemishes. Be sure to read Miss Nilsson's next article. In the meantime, "beautify" and try it to the hilt.

To Every Man—

Who is interested in Clothing we desire to make the following suggestion: "Investigate the values our 25 per cent Discount Sale brings you."

It means that you can choose any Suit or Overcoat in stock—Kuppenheimer's, too—and pay 25 per cent less than the regular price.

We made the cut in Clothing prices just that way—one-fourth off—and every man who knows our stock is well acquainted with the importance of this fact.

Not just a handful of Suits and Overcoats grouped and offered at a reduction—but our entire stock. It's such a radical step that you cannot grasp it in a minute. But when you do, you'll come and take a look at the values that are now to be obtained.

DISABLED MEN MUST BE AIDED, LEGION COMMANDER SAYS

Immediate Assistance Necessary, Declares Galbraith, Outlining Policy of Soldier Body.

By the Associated Press.

PHILADELPHIA, Nov. 13.—The policy of the American Legion for the coming year was made public here today, as outlined last night in an address by Frederick W. Galbraith, national commander of the legion, at a dinner given in his honor by the officers of the local posts of the legion. The first object of the legion, said Commander Galbraith, was assistance and a square deal for all disabled men. In outlining the position of the legion on the bonus bill now before Congress, he said that disabled men and their dependents must be provided for immediately.

"We believe that all ex-service men should receive compensation for the sacrifices made by them, but those who are in dire need must first be taken care of," he said.

The legion is in favor of a bill which will be presented to the next Congress providing for the consolidation of the War Risk Insurance Bureau, the Public Health Bureau and the Board of Vocational Education.

"Such a consolidation," said Galbraith, "will do away with the unnecessary delay that now attends every request for compensation and assistance."

"One of the most important functions of the legion," he added, "is Americanization work among immi-

grants. We asked permission to send representatives of the legion to talk to the immigrants before they left Ellis Island. Assistant Secretary of Labor Post, for reasons best known to himself, refused to allow us to do

this, but we must see to it that Americanization becomes one united nation and ceases to be the melting pot of nations."

Keep Your Nose Clean
Common colds are infectious and dangerous—check them at once by using May's Fine Needle Balm. A pure, natural product of the northern pines. The many flu and pneumonia cases in the last few years should be a warning to take precaution against colds. Cold germs will not thrive in a nose that is kept clean and wholesome. May's Fine Needle Balm is as soothing and refreshing as a breath of pine forest mountain air. Catarrh, which is usually the result of neglected colds, clears up quickly when this beneficial pine fragrance is used. Sold in two sizes—5c and 10c tubes.
Free trial by writing Geo. H. May, 219 W. Austin Ave., Chicago. May's Fine Needle Balm is for sale by Enderle Drug Co.'s 5 stores, J.C. & D. 3 stores, Wolf-Wilson Drug Co., Johnson Bros. Drug Co. and druggists everywhere.

Curling Hair This Way Preserves Its Beauty
That dull, dead appearance of the hair no longer troubles the woman who has adopted the almirante method of curling her tresses in curl. The result is different from that produced by the old method, devastating waving iron. The hair appears more naturally wavy and the application is really beneficial to the life and growth of the hair.
Any druggist, of course, can give you the liquid almirante. A small amount should be put on just before curling the hair, using for the purpose a hairbrush, drawing the down the length of the hair from root to tip. The effect is delightfully surprising. There is no discoloration, no greasiness, nor any other undesirable accompaniment. The hair is only as available, no matter how it is treated.

Curling Hair This Way
Preserves Its Beauty

That dull, dead appearance of the hair no longer troubles the woman who has adopted the allmerine method of keeping her tresses in curl. The result is very different from that produced by the dry, irritating waving iron. The hair appears more naturally wavy and curls, and the application is really beneficial to the life and growth of the hair. Any draught, of course, can strip the liquid allmerine. A small quantity should be put on just before detangling the hair, using for the purpose a clean toothbrush, drawing this down the full length of the hair from root to tip. The effect is delightfully surprising, and there is no discoloration, no stickiness, greasiness, nor any other unpleasant accompaniment. The hair is quite manageable, no matter how it is fastened.

LETTERS FROM THE PEOPLE.

Origin of "America."
 To the Editor of the Post-Dispatch:
 Dear Sir: Referring to a letter in the column, "Letters From the People," and which letter is headed "Our National Hymn," allow me to set the writer, as so many others, right on this much mooted question. Like to what the author of "America" has to say. It is the Rev. Samuel Francis Smith, D. D., a noted song writer that speaks:

"The hymn 'America' was the fruit of examining a number of music books and songs for German public schools, placed in my hands by Lowell Mason, Esq. Falling in with the tune of one of them, now called 'America,' and being pleased with its simple and easy movement, I placed at the German words, and seeing that they were patriotic, instantly felt the impulse to write a patriotic hymn of my own, to the same tune. Seizing a scrap of waste paper, I put upon it, with a half an hour, the verses substantially as they stand today. I did not know that I had done so. The whole matter passed out of my mind. A few weeks after, I sent to Mr. Mason some translations and other poems; this must have been in 1813. To my surprise, I found later that he had incorporated it into the program for the celebration of the Fourth of July, 1832, in Park Street Church, Boston. I have since heard it sung in many languages, more than half-way round the world, the latest translation of it which I have seen being into the Hebrew. When it was composed I was profoundly impressed with the necessary relation between love of God and love of country, and I rejoice if the expression of my own sentiments and convictions still finds an answering chord in the hearts of my countrymen."

Above are the exact words of the author of "America." It is distinctly American, although its melody is based upon the German melody. Later on it was adopted by England, and the words of "God Save the King" were substituted for the inspiring words of the real author of "America." A little more thought should be given to facts by amateur writers before rushing into print in the columns of the ephemeral daily press.

ADOLPH B. SUESS.

Concerning Railroad Passes.

To the Editor of the Post-Dispatch:
 The letter in your issue of Nov. 8 from "a deadhead contributor" was as lacking in reliable information as it was in brevity. The writer asked permission to "contribute a word or two," and then took a half column of your valuable space to give some two or three years old "during the war" stuff about "dead-head" passengers filling the Pullman coaches, and forcing revenue passengers to sit up. That doesn't mean anything since the railroads are back where they belong. A down-to-date experience may be of interest. Twice in the last month I tried to buy a Pullman berth to St. Louis on my annual railroad pass, issued to me as an attorney for one of the railroads, but was informed that a lower berth could not be sold on free transportation until within 20 minutes of the leaving time of train. The Pullman agent said the railroads demand a strict enforcement of this rule, and that one of the Pullman ticket sellers had recently got into serious trouble for violating it. And there was plenty of unoccupied space on the train both times.

PASS NO. X.

Help for Irish Sufferers.

To the Editor of the Post-Dispatch:
 "Noting articles in the Post-Dispatch of Nov. 7, stating that the Far East Relief Division of the Red Cross is making an appeal to the citizens of St. Louis for gifts for the destitute orphans of Armenia, Syria, Palestine and other countries of the Near East, also pleading for the 'adoption' of orphans, gives to support the orphan for a year, will the Red Cross kindly advise through the columns of the press if there are going to be any offerings or gifts sent to the unfortunate and helpless little orphans, or 'adoptions' of them, that are suffering untold misery in Ireland? There are many whose fathers and mothers have been ruthlessly taken from them without a moment's warning. There is many a family today without a home over their heads, without money and without a place to go. There will be very little work for them this winter, as their factories and manufacturing plants are being destroyed. What about these poor unfortunate who are too proud to beg, although cold and starvation is staring them in the face this coming winter? There is no people in the world that appreciates a kind act or word more than the Irish.

I ask, will not the Red Cross Relief Association—that gives a helping hand to all suffering humanity—see to it that the help and gifts are sent to these little orphans of Ireland, where suffering and misfortune are stalking hand in hand? They will be thankfully received and will relieve untold suffering. Will the Red Cross, through the columns of the press state what regulations are necessary for "adoption" as many givers can be reached in this manner who have not the time to inquire otherwise. I trust this appeal will be answered by the noble Red Cross by extending its helping hand to the needy of Ireland, as they say they give to all, regardless of nationality, creed or color.

Elkwood, Mo.

MERCY.

OUR RIVER'S NORTHERN SECTOR.

Waterway interests in conference at Minneapolis are justified in their fear that, with the lower stretches of the river reclaimed to commerce and the upper stretches neglected or utilized only in part, the valley will have an unsymmetrical development. The joint-rail-and-water routes extend their low-cost benefits to much of the territory north of Missouri, but the saving in the rates on those routes increases with the lengthening of the water route and the shortening of the rail route.

To decrease the ratio which the rail route bears to the water route in the joint-rate arrangement is an important object of the conference. Those in attendance show an accurate understanding of their specific problem.

They don't want river opportunities to be bounded by St. Louis or the mouth of the Illinois River. They insist that the Upper Mississippi must keep pace in utility with the Lower Mississippi.

It was pointed out that railroad inadequacy to demand, already felt several years ago, must menace industry 10 years from now, unless supplemented by water service; that the steady increase in railroad rates makes water transport a factor of tremendous potency in keeping down production costs and distribution costs; that—impressive figures—2,200 miles of internal waterways are under navigation in four countries of Western and Central Europe, while of our 28,000 miles of internal waterways hardly 2000 miles has utilization, and that utilization on a limited scale.

United co-operation on the part of the entire river valley, the North as well as the South, the East as well as the West, is vital to forcing recognition of our needs and to a full and practical use of river facilities. The conference at the headwaters of the Mississippi ought to be an important aid in securing that unity. Alertness and enthusiasm in the North will have a beneficial reaction in the South. With an emulative spirit for waterway achievement in each of these principal sectors of the river line of traffic, the burden of effort will be lightened and the objective brought within reach.

Urgent conditions plead for haste.

A BLESSING IN DISGUISE.

The collapse of the so-called Wrangel Government in the Crimea and the annihilation of its armed forces by the Soviet armies will be viewed in France as a new calamity of the most serious character. Elsewhere it may even be viewed as a blessing, in that it removes the last of the active enemies of the Red armies and leaves nothing to distract the attention of the Russian people from home affairs.

It cannot be doubted that war has furnished much of the cement that has held the Lenin-Trotsky machine together. Foreign armies, attacking from the north, south, east and west, have accomplished little more than to give solidarity to a misruled and distracted people. In the spirit of self-defense has defied invasion as the greater evil. The United States and Great Britain have learned their lesson, but France remains unconvinced. Unless she now foolishly finances another war on the Soviet Government the Red armies will have nothing to do at home. It requires no gift of prophecy to foresee the dangers that will beset the Soviet Government, with its huge war machine idle. It cannot but accelerate the disintegration of the Bolshevik power.

France has only to read the history of her own revolution from the period of 1793 to the rise of Napoleon to dictatorial power, to see the folly of her course toward Russia. But for the grand allies, endeavoring by their combined armies to prescribe a government for France acceptable to themselves, there would have been no Napoleon sustained by a devoted people. He was the incarnated reaction that invariably follows interventions of such a character. The Bolshevik Government is a tyranny, but only those living under it—and there are probably 80,000,000 of them—have the right to overthrow it. If this vast number of people does not like it, they will get rid of it, but not while foreign armies are on their soil. It was only an overwhelming superiority in armed force that could overthrow the Napoleonic government of France in 1815. No small expeditions like those in the Crimea and at Archangel could have accomplished it.

It is to be hoped that in the interest of the earliest possible restoration of peace and commerce in Europe France will alter some of her policies, not only those toward Russia, but those toward Germany as well. She no longer has the support of Great Britain or Italy in either. In fact, the English press is openly pointing to them as involving the permanent hostility of the two great European land powers containing most of the food and raw materials by which Europe must live.

France has steadily refused to agree upon the German indemnity, thus prolonging chaos in Germany; and the English press doesn't hesitate to charge that the French Government, having fed up the people on promises of endless German millions, fears now to confess its inability to extract them. Meantime, Germany has delivered to the Reparation Commission the 60,000,000,000 marks in "gold" bonds. Their real worth may be guessed when it is considered that the

German budget deficit this year is 70,000,000,000 marks.

In contrast with the French policy, Great Britain has not only been negotiating for resumption of trade with Soviet Russia, but has announced its decision to forego the right of confiscating private German property sequestered in the empire during the war. One cannot view the halting and conflicting attitudes of European statesmen toward restoration without recalling the pertinency of Chase's advice to Horace Greeley in the matter of specie payments, that "the way to resumption is to resume."

THE INDIANS AND THE BUREAUCRACY.

Denunciation of the Indian Bureau's mismanagement of its trust was voiced continually by those in attendance on the Society of American Indians in this city.

In appearance and grasp of public questions, the members of this society are among the most advanced members of the ancient race, and still their Americanization can hardly be regarded as complete. An important phase of the higher Americanization of the present is revealed in its apotheosis of the Federal authority.

Many millions of the white fellow citizens of these still untamed, though intelligent-looking, men and women regard the Federal power as embodying the sum total of possible wisdom, capacity and efficiency. Any trust committed to its care must always be executed with faithful fidelity, in their view. They are, accordingly, all the time insisting that more trusts shall be committed to its hands and incessantly causing new trusts to be taken from other jurisdictions and turned over to its superior administration. But ever since the foundation of the general Government, it has had control of Indian destinies. And if there are any Indians left, if those remaining have made progress, it is not because of the Government, but despite the Government.

The record of maladministration, nonenforcement of excellent laws, graft, cruelty and exploitation, of hopeful changes looking to betterment that only altered the form of the evils, is a long one. With most of the older, cruder evils, now suppressed, educated Indians, the peers of any of their fellow Americans, still complain of the control as middle-class, stifling to ambition, unintelligent, maladroit just at a time when Federal supervision is held up as the panacea of all evils, the solution of all problems.

No better test of the quality of the Federal bureaucracy could be afforded than that provided in its undivided control of Indian affairs for a century and a quarter, and Indians of excellent judgment, in attendance on the convention in this city, pronounce it a failure. Are they wrong or are a very large number of their white brethren right?

Does the experience of the Indians as Federal wards present anything that should cause all the rest of us to desire to become Federal wards, rapidly as we seem to be tending toward that status?

It looks as if the three highwaymen arrested in connection with the murder of an East St. Louis detective would not be able to get out on bond. If such ruling becomes general murder will cease to be one of our lucrative professions.

FEDERAL JUDGES TAX-EXEMPT.

The fear, if any has been felt, that the Federal tax collectors might at any time construe the income tax law so as to reach the \$15,000,000,000 or more of municipal bonds now exempt in the hands of their owners, will be set at rest by the recent Supreme Court decision in the case of Evans vs. Gora.

The direct question before the court was whether the salary of a Federal Judge was taxable, the Government contending that it was, by reason of the income tax amendment empowering Congress to tax "incomes, from whatever source derived." But the court took the view that this language was too general to override Section 1, of Article III, of the Constitution, providing for the appointment of Supreme and inferior court judges, who shall receive a compensation "which shall not be diminished during their continuance in office."

The court declared that the history of the sixteenth amendment tended to show that the sole purpose was to enable Congress to levy a direct tax without apportionment according to population, and that it did not extend the subjects open to Federal taxation. The effect of the decision is practically to strike out the words "from whatever source derived" and to confine Congress to the levy of direct taxes upon income without apportionment.

The Court's conclusion as to the intent of Congress in framing the amendment is a little surprising. In view of the facts. The amendment as first proposed was in these words:

The Congress shall have power to lay and collect direct taxes on incomes, without apportionment among the several states according to population.

But the form in which it was finally submitted and adopted contained, after the word "income," the phrase, "from whatever source derived," apparently exhibiting an intention to make no exceptions. However, the decision of the court controls unless or until it is reversed.

HOW TIMES DO CHANGE.

—Memphis Commercial Appeal.

IN THE WILDERNESS.

Written for the POST-DISPATCH
 by Clark McKelama

JUST A MINUTE.

DISTRAIT.
 SOFT, soft the evening shadows dim away,
 And sorrow with noiseless tread,
 Lifting the corner of her shroud, enters
 My room and, bowing low, remains.
 Without the winds moan on so ceaselessly.
 Beating with a rhythm some mournful song.
 The pining stars blink so wearily, so sad,
 And a cooling rain like the moon's great tears
 Drops 'twixt the lightning's fitful glows.
 In our minds, we can do better than that.
 And the winds moan on so ceaselessly.
 O, the loneliness of it all, the great sorrow,
 Depress, depress within this secluded retreat,
 Clinging a shadow which persists in lingering.
 I cannot smell the old familiar scent,
 And the melody of her hair nor enjoy
 The flash of love in those closed eyes.
 The touch of her dear, soft flesh so quick to
 Respond to love's peculiar call.
 Hazy, hazy the tips of the distant hills,
 I hear the voice of a cock crowing near.
 And now the melodious croon of birds of pain.
 The clouds flit o'er the face of Heaven,
 The moon's pale light streams o'er my knees;
 The shadow clings tight just o'er my heart,
 And chills it with its ghastly clamminess.
 Without, darkness settles.

EDWIN L. FRANK.

The Chicago Tribune, which fairly reflects us upon our blind side, says it was the first publication to point out that Mr. Wilson was scrapping the Monroe Doctrine. It thinks there is hope of saving it now and urges that among the first thing we do under the Harding administration is to reaffirm the doctrine as an irrevocable minimum of our participation in anything like a league of nations. The Monroe Doctrine has prevented a great many wars. It has preserved the sovereignty of many weak nations. When Mr. Wilson sought to extend that same pacification and protection to the world the Tribune appealed to all that is base and cowardly in us and fought Mr. Wilson to his utter defeat and humiliation. It wants to be sure now that the Monroe Doctrine has not been impaired by Mr. Wilson's efforts to give the world the benefit of his blessings. The Tribune holds it selfishly and Mr. Wilson held it unselfishly. That is the difference between them. The Tribune has but one conception of the world, and that is a place in which, so it says, it is the greatest newspaper. Mr. Wilson conceived it as an unhappy sphere needing our help. Mr. Wilson is a great man, but the Tribune is not a great newspaper. Great is great.

A Tale of Mixed Advertising.

A Quaker with the smile that won't come off sat on a Camel smoking a Murad, watching Armour's Grape Juice slowly pouring over a mountain of Kimolida. A young Cascairet walked up and handed him a cake of Ivory at the same time slapping him with a pair of Paris garters, remarking, "Goodrich people are scarce, don't you think so? Just then, Pape's Diaperine, who was listening attentively, crashed him over the head with a Life Buoy, remarking casually, "Sordozin in your hair." Grandma left hurriedly for cooler climates, saying as she went, "Pearline will be expecting me."

By this time the poor victim was feeling rather groggy and reaching for a Dove mounted its head and flew over the mountain into the valley of Troco. Lying down on a Whole Wheat Biscuit from the wilds of Michigan he remarked, "They Satisfy!"

It begins to look as if the world would better give up trying to subjugate the Bolsheviks with armies and strike for some middle ground upon which it can assimilate the Bolshevik idea.

Maybe it is only the funeral of the League of Nations that everyone is attending.

A woman in France has jumped 54 1/2 inches. Must have been a big mouse.

Some of the people who witnessed demonstrations of the machine which sends pictures by wire could not fail to foresee the innumerable uses to which such an invention will be put. For instance, one of them said we ought soon to be able to detect fraudulent checks upon presentation, since it will be possible to wire for signatures and get them back within a few minutes. In our opinion, we can do better than that. When we are away from home and want to know what the home folk are doing we can have wired to us such domestic scenes as baby being put to bed. Distance ought not to mean anything to us in any exile imposed by either business or society; just as it means nothing to us geographically since in the movies we are transported visually wherever we might go in the flesh. Do we wish to go overseas in a machine? A photograph will show us how the largely stripped off of its terrors. The pain of separation at last is eased. Hail the telestereograph, in its name sounding fearful, but in its works beneficent!

There is a storekeeper on Washington avenue who is trying as hard as anyone could to get the apostrophe correctly placed. He got out a circular the other day which had this in it:

Open Daily
 'Till Six
 Saturday Nights
 'Till Nine

One of them must be right, but he cannot know which, if he did, he would stick to it. What do you think?

Sign on a Denver church:
 Big Revival Meeting
 Everybody Welcome
 Soup Served Free
 Come and Hear the Music
 Come and hear the music is good. Also, it is probably true.

JEAN JOSEPH ROLETTE.

JEAN JOSEPH ROLETTE.
 Your tomb stands high on the bluff
 Captain of the fortresses of Prairie du Chien,
 Envoys extraordinary from John Jacob Astor,
 New York.
 Owner of pelts of the Northwest.

Jean Joseph Rolette.
 Your tomb stands high on the bluff
 Commanding the river, the Northwest and
 your widow.
 You tamed the blood of the red Indian;
 Made a fortune in furs;
 Captured in St. Louis the most beautiful woman
 in the Mississippi Valley.
 Your passionate blood, on that adventurous
 honeymoon,
 Sang lustily
 As your paddle cut into the strong current;
 And your canoe, with its precious voyager,
 Shot through the waves 300 miles up the great
 river.

Under an arrogant stone on the hill
 Your humble ashes rest.
 Peace lies on the valley.

But there is adventure in barter,
 And the blood of swift spirits is on the scent.
 Your rival has captured the fur-trading post.
 But a fine house holds facing the hill.
 Defying your arrogant tomb;
 And married your widow.

—LAURA SHERRY, in Poetry.

The MIRROR of PUBLIC OPINION.

This column is designed to reproduce without bias the latest comment by the leading publicists, newspapers and periodicals on the questions of the day.

AMERICA AND THE LEAGUE.

From the London Spectator.
LORD GREY, with that unprovocative and unexcitable wisdom which is his special characteristic, pointed out the essential fact of the situation. It is that America must be brought into the league if the league is to do what it is designed to do. As long as the richest, the most powerful, the greatest, both for population and territory, of the civilized white communities of the world stands outside the league, the league will be an ill-balanced organization and unable to fulfill its destiny. Almost any sacrifice is worth making which will induce the Americans to help and to help wholeheartedly. Here, if anywhere, it is true that the New World must be called in to redress the balance of the Old. To put it in plain terms, the Americans must be told that if they will join the league they can practically name their own terms. America should be officially asked to suggest such modifications of the existing covenant as would enable her to join. That will be far better than to have a new conference for the redrafting of the league. We confess that we look with consternation upon the idea of another Versailles. The Americans should be entrusted with the task of drafting a reconstruction scheme, of course in private and unofficial consultation with the representatives of the league. Left to themselves, they will be much more likely to suggest the minimum rather than the maximum of alteration than if a great debating society is opened either in Washington or London or Paris, with all its attendant paraphernalia of bureaus and experts and prime ministers.

DIVISION OF TURKEY.

From the San Francisco Chronicle.
THE division of the Turkish spoils between France, Great Britain and Italy has been made on the same old principle that has been the past governed partitions of the property of a bankrupt, but with a striking difference in method. The divvy is based not so much on territory as on the existing railroads. The case is parallel to a principle observed in the Southwestern United States, where grazing land is plentiful but water scarce. There stockmen care little about owning the land; if they control the water, no one else can use the land. There are districts in Arizona and New Mexico where great cattle concerns are based on ownership of all the springs, with almost no land held in fee. Some of the most notable of the early California ranch grants were laid out on similar considerations. In Asia Minor control of the railroads means commercial control of the country, which is what the Powers concerned are after. Territorial rule is of little use except as it affects order. It is not desirable that Great Britain did not even bother about defining any territorial sphere of influence for herself. The English are endeavoring to set up Arab rule in Mesopotamia, supported for the present by British forces for the sake of order and security. British opinion is divided on the chances of administrative success for this experiment. It seems to be strongly against the acquisition of territory in Mesopotamia, or elsewhere merely for territorial sake. If the British can maintain a commanding influence in Mesopotamia, so that their goods will be preferred there, they will be glad to transfer as much of the burden of administration as possible to the natives. Business is the thing, the glory of ruling, which the British people is learning not to care more than it is worth, may be left to those who desire it.

By the Associated Press.
 NEW YORK, Nov. 18.—A startling disclosure was made today by a former assistant to the Secretary of the Emergency Fleet Corporation, who declared that the board of directors of the corporation had no record of the money spent by the corporation in the handling of the Emergency Fleet Corporation's funds, and that the board had no record of the money received by the corporation from the sale of the Emergency Fleet Corporation's assets.

The name of President-elect was brought into the when Gillen said he had decided that it was of Congress to see that men, capable of handling a trust to them, be appointed departments. He said approval should be confirmed by the only when it is determined named as capable and efficient.

Accounting System Adopted
 "It has been conceded," that but few men connect the Emergency Fleet Corporation with an expert knowledge of the situation. He also said it was complete breakdown of the accounting system that the board main trouble.

Figures on Vouchers
 Prior to the advent of Gillen, said the treasurer board was only a paper of the vouchers without support vouchers.

On Nov. 1 of this year, said, of the sum of \$1,000,000 expended there had been no record of the money received by the corporation from the sale of the Emergency Fleet Corporation's assets.

There was no record of the money received by the corporation from the sale of the Emergency Fleet Corporation's assets. There was no record of the money received by the corporation from the sale of the Emergency Fleet Corporation's assets.

Former Assistant to Chairman Declares - Troubles
Came From Lack of Accounting System.

CONGRESSMEN TOLD OF LACK OF RECORDS

No Balance Sheets of Funds
and Not Even Notation of
Whereabouts of \$240,-
000,000, Witness Says.

By the Associated Press.
NEW YORK, Nov. 18.—A series of startling disclosures tending to support what he declared to be a "complete lack of adequate accounting system" in the handling of Government funds, were made here yesterday by Martin J. Gillen, a witness before the Walsh Congressional Committee investigating the affairs of the United States Shipping Board. Gillen was a special assistant to former Chairman John Barton Payne.

The name of President-elect Harding was brought into the record when Gillen said he had informed Senator Harding that it was the duty of Congress to see that only big men, capable of handling affairs entrusted to them, be appointed to all departments. He said appointments should be confirmed by the Senate only when it is determined the men named are capable and efficient.

Accounting System Assailed.
"It has been conceded," he said, "that but few men connected with the Emergency Fleet Corporation had an expert knowledge of accounting." He also said it was due to a complete breakdown of the accounting system that the board had its many troubles.

Figures used by the witness ran into billions of dollars. He testified that one of the first acts of Chairman Payne when he discovered the condition of affairs was to go to the Secretary of the Treasury and secure from him the services of Alonzo Tweedale, whom he made treasurer of the board. This was done about August 1919, and he testified that among other disclosures disclosed by the new treasurer were the following:

There was no balance sheet showing what funds the board possessed or in what banks its funds were deposited.

There was no record in the hands of the board of securities valued at more than \$240,000,000 which the board held. The securities, he added, were found in the vaults of a trust company in Philadelphia, where they had been placed for safe keeping.

D'Annunzio had been entertaining at luncheon and who had previously confided to me his faith in his host's ability to "knock the Socialists into a cocked hat" whenever he might choose to launch his Arditi (volunteer shock troops) against them.

Would Mean Civil War.
From talks with labor leaders in Milan, however, I am convinced that long before he got to the Eternal City the commandant of Plume would find himself confronted by a host of the belligerent groups would be animated primarily by hostility toward the Government but merely by the desire to dominate the other.

It is to prevent the development of so catastrophic a situation that the best brains in Italy are hard at work today. And Italians are rightly proud of the lead they have taken in the world-wide search for a solution to a problem that is scarcely less accentuated in other lands. There is certainly a wider realization in Italy of the imperative necessity for a change in the relations between employer and employee than anywhere else in Europe.

Italian capitalists appreciate the justice of labor's claim to a greater share both in the proceeds and in the direction of industrial production. The difficulty, however, is that the joining of D'Annunzio, who is a Socialist, to the Government is a move toward industrial enterprise a sufficient margin of unhampered activity to guarantee the reward of industry to the worker.

The former move proposed by Premier Giolitti cannot be said to have aroused universal approbation, since it has been assailed by powerful influences in both the capitalist and labor camps. Giolitti's is a policy, by which he seeks, first, to deprive the profiteers of extravagant realizations upon capital invested, and secondly, to insure direct supervision by the workers over industries in which they are employed. His first object has been achieved by the passing through Parliament of a bill calculated to give the Italian Treasury everything over 8 per cent of industrial profits.

Second he aims to attain by means of a measure defining the practical application of the supervision principle.

Ferraris and Giolitti.
This measure is to be drafted for presenting to the National Legislature by a committee composed of six representatives of capital and six of labor. But already, before the members of the committee have even been appointed, doubts of its reaching an agreement are voiced in influential and well-informed quarters. The chief critic of the Premier's proposals on the capitalist side is Senator Dante Ferraris, Minister of Commerce in the Nitti Ministry, delegate to the Peace Conference and one of the owners of the great F. I. A. T. automobile works at Turin. I had several talks with Senator Ferraris, just at the time when the crisis was breaking upon Signor Giolitti in the Senate were making Government supporters tremble.

His is admittedly the ablest brain among the industrial chieftains of Italy. The strong intellectual resemblance which he bears to Clemenceau's principal economic adviser at the conference, enhanced by a slight physical likeness, has led to his being dubbed "the Italian Louchouart." Many there are among the Roman politicians who see in him Giolitti's successor in the premier'ship.

Signor Ferraris' ideas on the problem of industrial relationships differ sharply from those of Giolitti in two respects. He insists that before anything else the laws of the kingdom be enforced; and that instead of the Premier's temporary committee a permanent "industrial settlement" be established to deal with disputes between bosses and workers.

SLEEPLESS NIGHTS IN ITALY OVER DANGER OF POSSIBLE CAPITAL AND LABOR CLASH

Italians Do Not Want Political Revolution but
Are Not Satisfied With Situation Resulting
From Struggle Between Classes.

By LINCOLN EYRE,
A Staff Correspondent of the Post-Dispatch and the New York World.
ROME, Oct. 27.—The gravest peril confronting the Italian political today does not arise from any movement to encompass the downfall of the existing regime. It is not a possible revolutionary assault upon the Government but a possible clash of classes in which the Government would occupy the ignominious position of impotent neutrality that is giving thoughtful Italians sleepless nights.

Nobody wants political revolution today in Italy. But nobody is satisfied with the anomalous state of affairs now existing as a result of the unending struggle between the conflicting interests of capital and labor. Among the Lombardy industrial magnates there exists a movement looking to the protection of their lawful rights by the extra-legal use of armed force. Had Premier Giolitti not succeeded in effecting an understanding between the manufacturers owning the seized metallurgical plants and the workers then occupying them, there is little doubt that the former would have essayed violent means to recover the property taken from them by violence.

New Field for D'Annunzio.
I have paid a visit to Fiume. I observed there the beginning of a scheme to make use of Fiume's dictator, Gabriele D'Annunzio, for the furtherance of capitalist interests. Generally speaking, Italian capitalism wholeheartedly approves D'Annunzio's unbridled imperialism, and he for his part shares the capitalists' enthusiasm for the demands of labor because the Italian working class being almost altogether Socialist, strongly oppose his "Italianism" program.

Consequently D'Annunzio and the big financial interests in Italy are hand in glove. He needs them to subsidize his nationalist adventures and they need him—or may soon—to help them in a forcible stand against the proletariat. To the Italian mind, the Italian working class is justified in taking, by strength of arms if necessary, the entire eastern littoral of the Adriatic. D'Annunzio is a god. Indeed, there is probably no man who enjoys a greater degree of popularity among his compatriots, even though a large percentage of them cordially detest him.

The financial and industrial barons of Rome, Milan and Turin, on the other hand, are unpopular among the classes because of the excessive profits they are believed to have piled up during the war. Therefore, to gain the support of the middle class radicals, he has entered into a pact with the proletariat—they must needs camouflage themselves. And the best possible camouflage would be D'Annunzio.

The post-soldier has expressed indignation to march on Rome if circumstances should necessitate it. This remark was made in the presence of one of the most powerful manufacturers in Lombardy, whom D'Annunzio had been entertaining at luncheon and who had previously confided to me his faith in his host's ability to "knock the Socialists into a cocked hat" whenever he might choose to launch his Arditi (volunteer shock troops) against them.

Would Mean Civil War.
From talks with labor leaders in Milan, however, I am convinced that long before he got to the Eternal City the commandant of Plume would find himself confronted by a host of the belligerent groups would be animated primarily by hostility toward the Government but merely by the desire to dominate the other.

It is to prevent the development of so catastrophic a situation that the best brains in Italy are hard at work today. And Italians are rightly proud of the lead they have taken in the world-wide search for a solution to a problem that is scarcely less accentuated in other lands. There is certainly a wider realization in Italy of the imperative necessity for a change in the relations between employer and employee than anywhere else in Europe.

Italian capitalists appreciate the justice of labor's claim to a greater share both in the proceeds and in the direction of industrial production. The difficulty, however, is that the joining of D'Annunzio, who is a Socialist, to the Government is a move toward industrial enterprise a sufficient margin of unhampered activity to guarantee the reward of industry to the worker.

The former move proposed by Premier Giolitti cannot be said to have aroused universal approbation, since it has been assailed by powerful influences in both the capitalist and labor camps. Giolitti's is a policy, by which he seeks, first, to deprive the profiteers of extravagant realizations upon capital invested, and secondly, to insure direct supervision by the workers over industries in which they are employed. His first object has been achieved by the passing through Parliament of a bill calculated to give the Italian Treasury everything over 8 per cent of industrial profits.

Second he aims to attain by means of a measure defining the practical application of the supervision principle.

Ferraris and Giolitti.
This measure is to be drafted for presenting to the National Legislature by a committee composed of six representatives of capital and six of labor. But already, before the members of the committee have even been appointed, doubts of its reaching an agreement are voiced in influential and well-informed quarters. The chief critic of the Premier's proposals on the capitalist side is Senator Dante Ferraris, Minister of Commerce in the Nitti Ministry, delegate to the Peace Conference and one of the owners of the great F. I. A. T. automobile works at Turin. I had several talks with Senator Ferraris, just at the time when the crisis was breaking upon Signor Giolitti in the Senate were making Government supporters tremble.

His is admittedly the ablest brain among the industrial chieftains of Italy. The strong intellectual resemblance which he bears to Clemenceau's principal economic adviser at the conference, enhanced by a slight physical likeness, has led to his being dubbed "the Italian Louchouart." Many there are among the Roman politicians who see in him Giolitti's successor in the premier'ship.

Signor Ferraris' ideas on the problem of industrial relationships differ sharply from those of Giolitti in two respects. He insists that before anything else the laws of the kingdom be enforced; and that instead of the Premier's temporary committee a permanent "industrial settlement" be established to deal with disputes between bosses and workers.

"The Government's failure to protect property rights," he told me, "has undermined Italy's credit abroad at a time when our economic life is largely dependent upon the aid of foreign capital. As soon as it became apparent that seizure of private property was going to be tolerated by the authorities, stocks in all our industries dropped to a level which is now making it impossible to raise money here for the reconstruction of the country."

C. OF C. URGES HARDING TO BACK WATERWAYS MOVE

Newton, in Address, Says
Questionnaire Shows Business Here Cut 50 Per Cent
by Car Shortage.

WILL INTRODUCE RIVER BILLS AGAIN

Congressman Shows Detroit
Handled 15,000,000 Tons
of Freight by Water Last
Year; St. Louis 250,000.

At the conclusion yesterday at Hotel Statler of a members' luncheon devoted to the consideration of the use of the Mississippi River for shipping, W. Frank Carter, president of the Chamber of Commerce, dispatched a telegram to President-elect Harding at New Orleans urging him to become an active advocate of the revival movement. Its text follows:

We of the Mid-Valley are pleased that you are having this opportunity personally to inspect the gateway through which this wonderful section of the country hopes and expects to send to all the world the products of its industry. We are confident that the visual knowledge which you will have gained on this trip will demonstrate to you anew the enormity of the problem which confronts this great half-century old throbbing into insignificance the forces of this mighty river, which today, though twice as long, twice as broad, twice as deep and twice as fast as the Rhine, carries on its broad bosom less than 4 per cent as much tonnage.

The railroad systems which years ago were allowed to cut the river's throat now make the river as an adjunct and need of fear it as a competitor. The business interests of the Mississippi Valley need every possible encouragement in the development of river traffic both upon such an investment. We ask that you give to this movement your indorsement and militant assistance. Can there be any one item more worthy of your pause or excuse for despatch, nor place for pessimism. If we are effective in solving our problems at home we shall be better able to help solve those of the world as belts our part in modern civilization.

The address was a part of a five-hour visit to New Orleans by the President-elect, who came from his vacation in Texas to take ship for a voyage to the Panama Canal Zone. He said in part:

I believe the American people have the right to realize that we must face momentous problems, and must face them with resolute courage, practical wisdom and patriotic determination. There must be no reason for pause or excuse for despatch, nor place for pessimism. If we are effective in solving our problems at home we shall be better able to help solve those of the world as belts our part in modern civilization.

Newton to Reintroduce Bill.
Congressman Newton of the Tenth District told of his intention to introduce in the short term of Congress the Newton bill providing for the completion within three years of projects adopted in principle by Congress 12 years ago for making navigable the Ohio, Mississippi and Missouri Rivers. These are the establishment and maintenance of a nine-foot channel in the Ohio from Pittsburg to Cairo, of a nine-foot channel in the Mississippi from St. Louis to New Orleans, of a six-foot channel in the Mississippi from Minneapolis to St. Louis and a six-foot channel in the Missouri from Kansas City to St. Louis.

Newton vigorously urged St. Louis business men to back him in his effort to gain passage of this bill, which will call for an expenditure of approximately \$100,000,000, and for this city to urge other regions of the valley to similarly support his measure. "It is votes in Congress that the river movement needs now," he said.

Blocks Foreign Capitalists.
"Today our national position is such," Signor Ferraris declared, "that the Prime Minister might as well declare the impotence of the state. Until this situation is altered and the Italian people as well as the world at large understand the Italian Government's determination to enforce the law we cannot hope to enlist the support of foreign financiers so badly needed for swift economic recovery."

"Signor Giolitti's Minister of Labor, who is a Socialist, recently informed an influential American business man that the Government is to give the country forthwith institutions capable of utilization in an eventual transformation of capitalist economy into Socialist economy. If this statement is correct, the Giolitti Government is deliberately misinterpreting the will of the great majority of Italians, who desire to see the country's economic stability re-established on the basis of private ownership and not of communism. The heads of the labor organizations, who are highly intelligent and reasonable men, have made this quite plain in disavowing Russian Bolshevism.

"I believe it to be entirely possible to reconcile the aspirations of the working class with the inherent rights of the employer, but it must be done in an atmosphere of sympathetic comprehension of each other's needs. Two years ago I believe such a move had been contemplated elsewhere, the Italian manufacturers, of whose association I was then president, accorded the eight-hour working day to their employees. The liberal attitude toward industrial questions of which this was proof prevails to an equal extent among the heads of our industries today.

"But they feel that the Government has yielded to labor at a moment when labor was violating the laws of the country and is yielding, moreover, in an opportunist spirit, thus affording no permanent solution. The principle of workers' supervision is accepted by the manufacturer. But with Signor Giolitti's scheme for expelling it they are by no means content."

Newton said that the policy of such a condition upon St. Louis was refusal of industry to locate where it could not obtain cheap transportation. It is not the cost of an article at the point of its production which determines its market value, but the cost of that article at the point where a demand for it exists," he declared.

He declared that the dismay in St. Louis at the ease with which Detroit and Cleveland outstripped St. Louis in the last census should direct attention to the fact that Detroit had not in any respect outstripped St. Louis.

SIMPLE LIVING URGED BY HARDING AT NEW ORLEANS

President-Elect in Luncheon
Address Declares Principle
of Square Deal Will Solve
Our Problems.

SAYS WE CANNOT RETURN TO OLD ORDER

Senator and Mrs. Harding
and Party of 40 Will Sail
for Panama—No Stop to
Be Made in Mexico.

By the Associated Press.
NEW ORLEANS, Nov. 18.—Plain living and square dealing were said by President-elect Harding, in a speech here today, to be the nation's strongest reliance during the coming period of after-war readjustment.

"Sanity, clear thinking, common sense, honesty and co-operation" were among the qualities named as prime necessities in meeting the demands of the new world order, and he declared material interests and national happiness both would benefit if the United States became "a simple living people once again."

Whatever discouragements and reverses there have been, he declared, would be only temporary in character. "He predicted that 'a confident America' would solve its problems on the simple basis of the old-time virtues, and would come through the reconstruction period stronger and more dependable than ever before."

The President-elect announces he will not stop at a Mexican port on his voyage to the Canal Zone, as he had been urged to do by Mexican officials. He feels that to do so would be an inconvenience on the regular passengers on his ship.

Senator Harding's speech, delivered at a luncheon of the New Orleans Association of Commerce, also contained a message of assurance for the industrial development of the South and an expression of hope that the ties of commercial co-operation between the United States and foreign, and we ask that you give to this movement your indorsement and militant assistance. Can there be any one item more worthy of your pause or excuse for despatch, nor place for pessimism. If we are effective in solving our problems at home we shall be better able to help solve those of the world as belts our part in modern civilization.

GOLTRA TELLS WATERWAYS CONVENTION WHAT BARGES CAN DO FOR MINNEAPOLIS

Says Fleet Can Deliver Coal There at \$1 a Ton
While Railways Charge \$3.75, if City Will
Provide Unloading Facilities.

By a Staff Correspondent of the Post-Dispatch.
MINNEAPOLIS, Nov. 18.—The statement of Edward F. Goltra of St. Louis with respect to the Government freight fleet he is to operate under lease upon the Upper Mississippi River was the feature of the closing session of the Upper Mississippi Valley, when the association organized permanently with W. P. Trickett of Minneapolis president and Sidney J. Roy of Hannibal, Mo., secretary-treasurer.

Goltra said he had an appropriation of \$3,800,000 for four towboats and 19 barges, all of which are to be ready for operation next spring. He said it had taken just two years longer to build them than anything thought would take. Two of the towboats and all the barges have been launched, and the other two towboats will be launched within the next six weeks. The barges are 300x450 feet, each of them carrying 3000 tons at nine feet of water, 2500 tons at eight feet and 850 tons at four feet. The boats are 250x58x8 feet, with twin tandem compound engines developing 1500-horsepower each. He estimated that the fleets would make two round trips a month, delivering 18,000 tons of coal per trip and taking down a corresponding cargo of iron ore or whatever else was offered in bulk freight.

No Adequate Facilities.
Goltra expressed the fear that no adequate facilities for unloading this coal would be provided either at St. Paul or Minneapolis, and he asked for a conference with business interests of these cities after the convention to see what can be done. He thinks coal can be laid down here by river at a cost of \$1 a ton as against a rail cost averaging \$3.75 a ton from different parts of Illinois. He had been informed that 28,000,000 tons of coal per annum are brought to this region from Illinois and asked the Minneapolis and St. Paul business men to consider what the saving would be to them if his service could be maintained. He said the largest freighter on the Great Lakes, the John I. Schoemaker, has a capacity of 12,500 tons as against the 18,000 tons capacity of each of his fleets.

Would Make Big Saving.
Goltra said that if the upper river were improved at a cost of \$100,000,000 per mile over the distance of 840 miles to St. Louis the saving on coal freights alone would more than pay the interest upon such an investment. He said he had no intention of operating the fleet in the season when the water is low, and had told the Government when the appropriation was made that the freights he proposed moving would have to be moved before the first of September. The cost of operating one of the towboats he estimated at \$10,000 per month. He said he had not been able to discover any reason why the coal supply of the region around the head of the river could not be brought here by river for at most half of what it costs to

that of the American people themselves. It is for them, under governmental leadership, to meet the great test.

"Ours are millions of broad acres to be responded to man's cultivating touch. We have an empire and millions more are awaiting reclamation. We have not met revealed our mines nor measured our water power. We are unmatched in genius and unexcelled in industry. We are progressive in education. We are free in religion and mean to stay free, and mean ever to be free in press expression. We have more than the beginning of an adequate transportation system. We are awakened to the possibilities of inland waterways and tardily alert to the imperative need of a merchant marine to widen commerce, world influence and national safety.

"Somehow, I feel that the Western Hemisphere is our special field of influence and trade. Commerce marks the highways of friendship as well as rivalry. Our trade routes by sea to the south ought to be sufficient and reassuring comity and concord among Americans—South Central and North. Bind our friendship with the ties of trade and we shall make it indissoluble.

Flood and Ebb of Fortune.
"We have ships now, we have the commercial foundations, our future lies in policies and practices. We must buy as well as sell, to be sure, but we need the expanding trade policy, its effecting agents in salesmen and credits and the simple practical understanding that commerce is the life blood of material existence. Our great assurance at home lies in a land unravaged by war, at enmity with no people, envying none, coveting nothing, seeking no territory, striving for no glories which do not become rights of nations. This republic cannot, will not fail, if each of us does his part. If we but work and use thriftily and seek that understanding which reveals mutually of interest, we can stand and small office staff under the supervision of George B. Christian Jr., secretary. Senators Hale of Maine and Frelinghuysen of New Jersey, who were in the party at Point Isabel, will be among the guests to go along to Panama.

Forty Persons in Party.
In a private address to a large crowd gathered at the city hall, Senator Harding expressed his gratitude for the reception accorded to him through the South and declared one of his fondest ambitions was to see a nation where sectionalism was completely forgotten. He also touched briefly on the tariff question, urging the working out of a tariff policy that would prevent foreign dumping at the expense of American industry.

About 40 people will be in the party sailing with Senator and Mrs. Harding on the steamer Parmelia, including secret service, newspapermen and a small office staff under the supervision of George B. Christian Jr., secretary. Senators Hale of Maine and Frelinghuysen of New Jersey, who were in the party at Point Isabel, will be among the guests to go along to Panama.

Each Addresses Convention.
Congressman Basil V. Wisconsin, joint author with Senator Cummins of the 1920 railroad bill, made a stirring address to the convention, urging all the people in the Mississippi Valley to stand behind the Government experiments in inland waterway transportation.

"They are going to have their new equipment upon the lower Mississippi and Black Warrior rivers next season, and those operations are going to prove forever the practicability of inland waterways transportation," the Congressman said.

Introduced as the foremost legislative authority upon transportation in the United States, he said the time had passed when the rivers would be fought by the railroads, which have too much business of their own and too many problems to care what is being done on the rivers and the canals.

"The time has passed also when we can dally with this subject any longer. The nation is now in a position compelled to go into foreign trade whether we want to or not, we need those inland waterways in our business and cannot do without them."

One of Resolutions.
Among the resolutions adopted by the convention before adjournment yesterday afternoon was the following:

"That in view of all the facts and the freight rate situation as we find it affecting the shipping public in the upper Mississippi Valley, we urge that immediate steps be taken to secure the extension of the New Orleans Federal barge service to and from that port and the Twin Cities and all intermediate points."

The convention also indorsed the Goltra project and pledged its support. The convention was attended by traffic men from all the principal cities upon the upper Mississippi and seems to have resulted from a somewhat sudden awakening among shipping interests to the importance and impetus of the inland waterways movement.

Hyde declared that the Republican party would have no alibi for failure to keep its pledges. "We have everything," he said, "except the office, control of both branches of the Legislature and three of the seven Justices of the Supreme Court. Every man connected with this next administration must understand that we are going to make good on our promises and that it is his place to do his part."

"We Must Keep Pledges."
"We can offer no excuses for failure to keep our pledges. We have the power. What we want to do is to create such an appetite among Missourians for Republican administration that it will not be fully satisfied for at least 25 years. There is one way to do that, and only one way, and that is by giving the State a government for the welfare of the people of the State. Such an administration will be for the welfare of the Republic. Party success is bound to follow honest, conscientious administration in the interest of the whole people of the State."

To the Executive Committee of the State Committee was delegated the power to establish the State headquarters. It virtually was decided to remove the headquarters from St. Louis to Jefferson City, where the working organization can be in close touch with the Republican State administration, and removed from the old stand-pat political influences which are powerful in the local organization in St. Louis.

Hughes said that \$25,000 would be needed to carry out the program up to the next campaign, and as members of a committee to raise the fund he appointed Roy H. Moninger of Kansas City, Dell Evans of Bonne Terre and John Evan of Springfield.

HYDE AND HUGHES LAY PLANS TO KEEP CONTROL OF G. O. P.

Governor-Elect and Chairman of State Committee
Promise Efficiency in
State Administration.

HEADQUARTERS MAY GO TO JEFFERSON CITY

Permanent Organization
Program Calls for Raising
of \$20,000 Fund and Issuing
of Weekly Bulletin.

Organization plans to save the control of Republican party affairs, in Missouri to the State Committee, dominated by Gov. Elmer Hyde and J. G. Hughes of Macon, chairman, and as far removed as possible from the Morse-Babier-Schmoll-Goldstein wing of the party, were worked out yesterday at a conference of members of the State Committee, state officers-elect and congressmen-elect at the American Annex Hotel.

Hughes, Hyde and their associates in the "progressive" element of the party, which captured control of its affairs in the August primary, had outlined a plan which was adopted, to keep constantly "on the job" during the 18 months before the next election, and to maintain a tight hold on the party reins.

The plan is calculated to prevent National Committeeman Babier, E. L. Morse of Excelsior Springs, John Schmitt and others who long were in control of party affairs, from regaining that control, and the determination to keep up an active working organization is said to be the result of a study by the new leaders of political history. This study brought to their attention the fact that rarely does a political "house cleaning" faction remain long in power for the simple reason that as soon as it has won control it grows sick and satisfied, while the older, experienced politicians quietly get back on the job and regain all they lost.

Plan to Hold Control.
Hyde, Hughes and their associates apparently are decided that they are going to take no chances of losing what they have won.

Hughes said he prepared the way for the presentation of the plan to the conference by speeches in which they renewed their campaign pledges that they would guarantee an administration that would not be a party machine, and that honest elections, both in the primary and in the general elections, would be guaranteed.

Hyde declared that the Republican party would have no alibi for failure to keep its pledges. "We have everything," he said, "except the office, control of both branches of the Legislature and three of the seven Justices of the Supreme Court. Every man connected with this next administration must understand that we are going to make good on our promises and that it is his place to do his part."

"We Must Keep Pledges."
"We can offer no excuses for failure to keep our pledges. We have the power. What we want to do is to create such an appetite among Missourians for Republican administration that it will not be fully satisfied for at least 25 years. There is one way to do that, and only one way, and that is by giving the State a government for the welfare of the people of the State. Such an administration will be for the welfare of the Republic. Party success is bound to follow honest, conscientious administration in the interest of the whole people of the State."

To the Executive Committee of the State Committee was delegated the power to establish the State headquarters. It virtually was decided to remove the headquarters from St. Louis to Jefferson City, where the working organization can be in close touch with the Republican State administration, and removed from the old stand-pat political influences which are powerful in the local organization in St. Louis.

Hughes said that \$25,000 would be needed to carry out the program up to the next campaign, and as members of a committee to raise the fund he appointed Roy H. Moninger of Kansas City, Dell Evans of Bonne Terre and John Evan of Springfield.

Decrease in Government Expenses.
WASHINGTON, Nov. 18.—Governmental expenditures for October fell off by nearly \$1,239,000,000 as compared with September, according to the monthly statement issued by the Treasury. Disbursements for the month totaled \$714,442,664 against \$1,944,093,527 in September.

Decrease in Government Expenses.
WASHINGTON, Nov. 18.—Governmental expenditures for October fell off by nearly \$1,239,000,000 as compared with September, according to the monthly statement issued by the Treasury. Disbursements for the month totaled \$714,442,664 against \$1,944,093,527 in September.

A Simple Way To
Remove Dandruff

There is one sure way that has
never failed to remove dandruff at
once, and that is to dissolve it, then
you destroy it entirely. To do this,
just get about four ounces of plain,
common liquid arvon from any drug
store (this is all you will need),
apply it at night when retiring; use
enough to moisten the scalp and rub
it in gently with the finger tips.
By morning, most if not all, of
your dandruff will be gone, and
three or four more applications will
completely dissolve and entirely
destroy every single sign and trace
of it, no matter how much dandruff
you may have.

You will find all itching and dig-
ging of the scalp will stop instan-
tly, and your hair will be fluffy, lus-
trous, glossy, silky and soft, and look
and feel a hundred times better.

Bronchial Troubles

Relieve the irritation and you relieve the
cough. Do both quickly and effectively
by using promptly a dependable remedy—

PISO'S

4 MEN LOST \$2140 IN
EAST ST. LOUIS HOLDUP

Only \$1164.50 Found After
Three Men Confessed to
Saloon Robbery.

Complaints filed with the State's
Attorney by four East St. Louis men
and made public today alleged that
\$2140 was stolen from them by the
robbers who held up a dice game
early last Sunday in Edward Kearns'
East St. Louis saloon, when Detective
Perry Frost was shot and killed
when he surprised the highwaymen
in the act of committing the rob-
bery.

Of the loot, \$1164.50 was found
by policemen on a vacant lot near
the saloon on directions given by
Norman Taylor, who confessed hav-
ing taken part in the robbery. Tay-
lor said this was all that had been
stolen.

The new complaints allege that
\$1200 was stolen from Thomas
Fadgett, \$800 from Thomas A. Brown
and \$100 each from Edward Kearns,
proprietor of the saloon, and his
brother-in-law, W. B. Davis.

The complaints were filed yester-
day and preparations were made to
issue warrants on them in case a
court effort to have Taylor, Edward
Pohlman and Gay Bartholomew re-
leased on bond should be successful.

Their release was denied when it
was shown to the Court that the
three had been charged in warrants
with first-degree murder and the
State's Attorney had advised that it
was not customary to regard murder
as a bailable offense.

Pohlman, Taylor and Bartholomew
were taken to the Belleville jail
today for safekeeping. Under an
order issued yesterday by Judge Mil-
lard in the City Court of East St.
Louis they are to be held there
without bail until their preliminary
hearings, which are set for next
Tuesday before Justice of the Peace
Kane of East St. Louis.

AUTO CRUSHED BETWEEN
STREET CARS, DRIVER HURT

Two Knocked Down, One Thrown
From Truck, in Day's Report to
Police Headquarters.

Walter M. Wilkerson, 2311 Shen-
andoah avenue was bruised last
night when his automobile was
crushed between a southbound Park
car and a northbound Compton car
at Thirty-ninth street and Cleveland
avenue. When the cars were
stopped Wilkerson was seated in the
wreckage at the steering wheel. The
machine was damaged \$1500. He
told the police he had been driving
west in Cleveland avenue and had
seen the Park car and believed he
had room to pass ahead of it when
the Compton car loomed up and he
swerved and was caught between the
two.

MACCABEES TO HONOR MISS WEST

Reception Program Arranged for
Auxiliary Commander.

Miss Bina M. West, supreme com-
mander and founder of the Women's
Benefit Association of the Maccabees,
a fraternal organization, will be
the guest of honor of the St. Lo-
uis chapters at meetings to be
held tomorrow afternoon and even-
ing at Trimm's Hall and Saturday
at Hotel Statler. A program has
been prepared for her reception and
a number of new members will take
the initiatory degree at the same
time.

Miss West is holding meetings at
various points in the State in the in-
terest of the Marathon trip to the
Pacific Coast in 1923. This trip is
in the form of an award which is
being offered to every State for spe-
cial work in the order. Mrs. May
A. C. Sommers, great commander for
Missouri, is accompanying Miss West
on her tour.

ROCK-CRUSHER AT STATE PRISON

Illinois Will Sell Output to Farmers
at Cost.

CHESTER, Ill., Nov. 18.—With
the completion of the rock-crushing
plant at the State Penitentiary, the
first, fertilizing farms in this
region with limestone will be done
at cost. The limestone hereabouts con-
tains so much acid that clover can-
not be grown, and heretofore manu-
facturing of limestone has been done
privately and at a profit. The lime-
stone which will come from the new
rock crusher at the penitentiary will
be sold at cost, it is announced by
State officials in charge.

Tenants Abandon Farms

DENVER, Tex., Nov. 18.—A new
phase of the situation facing cotton
growers in North Texas, is revealed
in the statement of a land owner of
this section who says that at least
a thousand acres of cotton is being
going to waste because the tenants,
refusing to pick it, have abandoned
the farms, and are seeking work in
the larger towns and cities. As a re-
sult the labor market in this section
of the State is becoming glutted, and
farmers are begging for tenants.

room. Subject to imperfections.
(Downstairs Store.)

MYSTERY MELODRAMA FILM
VISIBLE AFTER MANY TRIALS.

Visitors to Women's Exposition Last
 Night Agree Some Parts
 Are Well Acted.
 The exoneration of "Mr. Buntley."

GARDNER

"IT SPEAKS FOR ITSELF"

which has been in suspense since the first showing at the Women's Exposition Monday. The mystery melodrama film, was made convincing last night, after 15 lenses and six different adjustments of the screen had been tried in an effort to make the picture visible.

Those who saw the picture remained uncertain of the picture's exact content, but whether "Mr. X" was all he should have been or not, because faulty arrangement of screen and projector made the picture so faint that the characters were sometimes indistinguishable. This was satisfactorily corrected for the first time last night and visitors to the exhibition were surprised to find surprisingly good acting had been done by some of the St. Louisans who took the parts.

Scruggs-Vandervoort-Barney
NEW BASEMENT SHOPS

Store Hours: Daily, 9 to 5:30; Saturday, 9 to 6 Olive and Locust From Ninth to Tenth

Starting Tomorrow—A New Purchase, and
Our Greatest Sale of Coats

Including many of the smartest new "wrappy" models, all sizes for women and misses

*Coats made to sell at \$50.00, \$60.00,
\$75.00, \$85.00, and a few higher*

\$37.50

*All lined with plain or fancy silks;
many interlined*

Every Coat brand-new, just in from New York, bought at a tremendous saving from two high-grade manufacturers of women's apparel. They constitute the biggest Coat value that the Basement Shop has offered in its entire history.

The Materials

- Evoras
- Suedines
- Suede Velours
- Chameleon Cord
- Bolivia
- Chamoistyn
- Velours

The Styles

—All kinds of staple belted Coats, smart "wrappy" models in the new Winter styles, and a number of the new semi-dolman effects.

Fur Trimmings

- Nutria
- Skunk-Opossum
- Natural Opossum
- Natural Raccoon
- French Seal
- Australian Opossum

The Colors

- Navy—New Blues
- Burgundys

ABANDONED BABY TO RECOVER

Infant Found in Lot Not to Loose Hands, Physicians Say.
The 3-months-old baby girl who was found in a weed patch near the Bethesda Foundling Asylum, 3651 Vista avenue, Tuesday morning, with her feet and hands frozen, will recover, and it will not be necessary to amputate its hands, physicians at the city hospital said yesterday.
It was believed at first that it would be necessary to amputate its hands to save its life. There was a bruise on the baby's head. It will be placed in the care of the Board of Children's Guardians.

Shipping Board Meeting Called.

By the Associated Press.
WASHINGTON, Nov. 18.—The new Shipping Board appointees have been called by Chairman Benson to meet Dec. 1 and take up their duties. Allocation of the various functions of the board to the commissioners, the chairman said, would be taken up with a fairly definite plan already prepared for their approval.

TELLS A SECRET

Manufacturer of Mentho-Laxone Tells Ingredients, So Public Can Appreciate Pure, Reliable Medicine. First dose relieves.
Many people fear to take medicine to check and abort colds, cure coughs, catarrhs, etc. This fear is groundless with all the products of The Blackburn Products Co., Dayton, Ohio. Not one contains opiates, narcotics or harmful drugs. Mentho-Laxone, for coughs, colds, catarrhs and all distresses following a cold, is a compound of Wild Cherry, Teal, Cassia, Orisella, Menthol Ammonium Chloride, and alcohol sufficient to preserve and keep in solution.
Every ingredient is in a concentrated form and the medicine is so strong that only ten drops does are to be taken in the "raw" state. But the ideal way is to make into a syrup by emptying a 5-cent bottle of Mentho-Laxone into a pint bottle and then fill the bottle with granulated sugar syrup, made by dissolving a pint of sugar in a half pint of boiling water. It is said by thousands that this makes a most efficient home treatment for all cold troubles. 4000 barrels were used last year! Why? Because it's the best and cheapest. The manufacturers guarantee it to please or money back. Sold by all good druggists.
Many buy and sell by means of information gained by reading Post-Dispatch WANTS.

The Welcome Caller

Children are always glad to see the St. Louis Dairy Company's milkman, because he means to them a replenished supply of rich, sweet milk full of nourishing goodness.

They, as well as the grown-ups, have learned to recognize the unquestioned superiority of St. Louis Dairy Company's milk, because it's always of that same even high-grade quality.

The knowledge that you are getting a product for your table that's wholesome, lends zest to any meal. St. Louis Dairy Company's milk is procured, pasteurized, bottled and delivered under most sanitary supervision.

Drink more milk.

No More Misery After Eating

Just Takes An Etonic

"The first dose of Etonic did wonders for me. I take it at meals and am no longer bothered with indigestion," writes Mrs. Ellen Harris. Thousands of people, like this dear lady, gratefully testify about Etonic, which does its wonders by taking up and carrying off the excess acidity and gases which bring on indigestion, heartburn, bloating, belching and food repulsing. Acid stomach also causes about seventy other non-organism ailments. Protect yourself. A big box of Etonic costs but a trifle with your druggist's guarantee.

MARKED DECLINE IN LIVING COST ITEMS

Statistics Show General Drop In
October on Everything Except
House Furnishings.

WASHINGTON, Nov. 18.—Price statistics given out by the Department of Labor show marked declines in October in practically all items entering into the cost of living except house furnishings. Clothing, it was said, had dropped 18 per cent below figures compiled to represent 1919 costs, and farm products 21 per cent. In some lines, October prices were still above those of a year ago, but all were quoted as below September, 1920, figures. The index figure of prices for the month was placed at 225 against 242 in September, and 223 in October, 1919.

17 Per Cent Reduction in Price of Rolled Oats.

By the Associated Press. CHICAGO, Nov. 18.—A 17 per cent reduction in wholesale price of rolled oats is announced by the Armour Grain Co. "The price of rolled oats has increased steadily since July, 1918, officials of the company said. The cut is made possible by the recent decline in price. Officials of the company said 20-ounce packages, which have been retailing at 18 or 19 cents, should sell in a few weeks at 15 or 16 cents. Grocers and jobbers have not stocked up on package cereals, it was said, in anticipation of a decline, and therefore the reduction should reach the consumer within a short time.

Declare Clothing Prices Are Now On a Stable Basis.

CHICAGO, Nov. 18.—Clothing prices now are on a stable basis, according to a statement issued by the board of directors of the National Association of Retail Clothiers. "Readjustment of prices has well run its course," said the statement. "Without taking into consideration costs of material values, the retail merchant has passed to the consumer price concessions that would have been delayed several months if the ordinary processes of trade trend were followed. "With continued public confidence and favorable weather conditions, clothing stocks in the main will be well liquidated by the end of the season. The future of the industry is much brighter than at any time during the readjustment period."

Iowa Bakers Reported Increasing Size of Bread Loaves.

By the Associated Press. DES MOINES, Ia., Nov. 18.—Iowa bakers are all reporting an increase of from 12 to 15 per cent in the size of the bread loaf, according to Charles Alstadt, president of the State Association of Bakers, who addressed local concerns here.

CHILD CLAIMED BY TWO MOTHERS GOES TO CANADIAN

Wealthy Chicago Woman Denied Possession of "Baby Irene" by Toronto Court.

By the Associated Press. TORONTO, Ont., Nov. 18.—The last resource upon which Mrs. Frederick Matters of Chicago pinned her hope of regaining possession of "Baby Irene," claimed by two mothers, was exhausted here yesterday when the Appellate division of the Supreme Court upheld a decision of the lower court awarding the child to Margaret Ryan of Ottawa. By the same process of law the child was excluded from falling heir to nearly a third of a million dollars which would have been hers as a daughter of the rich American. Ever since the two women, Mrs. Matters and Margaret Ryan, were inmates of Misericordia Hospital the fight over "Baby Irene" has raged in the courts. Both had become mothers, but only one child had lived.

Months of litigation, with both women claiming a thriving child, resulted in the decision of Justice Lenoix last December that a substitution had taken place and that Margaret Ryan was really the mother of the infant girl.

MAIL CARRIER HAS INCOME OF \$15,000 A MONTH FROM OIL

Dallas Man, Whose Farm Develops "Gusher," Reports at Postoffice Every Day.

By the Associated Press. DALLAS, Tex., Nov. 18.—An oil operator, with an income of approximately \$15,000 a month, is numbered among the mail carriers of Dallas. He is Preston Lockhart, whose farm in Stephens County has developed an unusual showing of the "liquid gold." Though oil was discovered on Lockhart's farm several months ago the prospect of sudden wealth had no visible effect on the Lockhart family. Lockhart reported for duty at the Postoffice each morning with the same punctuality as before Lockhart formerly was a farmer, but came to Dallas several years ago. At first the dividends from the oil wells amounted to about \$200 a month, but early in November it was learned that a 7000-barrel "gusher" had been brought in.

Ethical Society to Hear Europeans.

The Ethical Society will have as its guests and speakers Sunday two Europeans of distinction, who have been brought to this country by the American Ethical Union for the purpose of informing the various ethical societies and the public generally in regard to spiritual conditions in Europe, and more particularly as to the effect of the war upon the ethical movement over there. They are Harry Snell of London, secretary of the English Union of Ethical Societies, and Dr. Jean

Wagner, a professor at the University of Lausanne, who has been the organizer and chief lecturer for the ethical movement in Switzerland.

Milk that makes cocoa richer, creamier!

You will like to have the family drink iced cocoa—or hot cocoa—because it is wholesome and nourishing.

How pleased they will be to have it richer and creamier—as it is when made with Libby's Evaporated Milk. This milk gives it a smooth, rich body which makes quite a new drink of it—iced and served for luncheon or dinner it is a real treat.

Libby's Evaporated Milk is unusually fine, pure milk from the most famous dairy sections of this country. More than half the moisture is evaporated—thus doubling the food value and making it delightfully rich.

You will find Libby's Evaporated Milk a perfect ingredient for use in milk and cream recipes—for soups, sauces, custards, cakes, ice creams.

In the wholesome plain dishes you serve the family every day, cream soups, rice, tapioca pudding—use Libby's Evaporated Milk.

Wherever your recipe calls for milk use Libby's Evaporated Milk and water, half and half; where the recipe says cream, use Libby's Milk undiluted.

Order from your grocer today this milk from famous pasture lands. It gives a richer creaminess to everything in which you use it.

Libby, McNeill & Libby, Chicago

HOSPITAL UNABLE TO TAKE INFECTIOUS-DISEASE CASES

Staff of Nurses Results In Making Boys Carrying Diphtheria Back to Bellefontaine Farm. Disability on the part of the limited number of nurses at the city hospital to care of infectious disease cases made known yesterday when boys of the Bellefontaine Farm Industrial School, classified as diphtheria carriers, were denied admission to the hospital. They are still at the Industrial School, where, according to hospital authorities, they are a menace to the entire population of boys. Commissioner Shutt said yesterday that the boys who carry diphtheria germs in their throats had been sent to the isolation hospital where all cases of infectious diseases are treated, but that that institution was filled, an emergency had been called upon at the city hospital and it had been planned to treat infectious cases there if sufficient nurses could be obtained. Ordinarily the boys who carry diphtheria germs in their throats are sent to the isolation hospital where all cases of infectious diseases are treated, but that that institution was filled, an emergency had been called upon at the city hospital and it had been planned to treat infectious cases there if sufficient nurses could be obtained. The nurses receive \$12 a week and work 12 hours a day. There is a bill, before the Board of Health, to increase the pay to \$19 per week for the first year, \$100 in the second year and \$110 in the third year.

Thomas Jefferson Coolidge Dies. ST. LOUIS, Nov. 18.—Thomas Jefferson Coolidge, former United States minister to France, died at his home last night. Coolidge was born

HOSPITAL UNABLE TO TAKE
INFECTIOUS-DISEASE CASES

Staff of Nurses Results In
Boys Carrying Diphtheria
Back to Bellefontaine Farm.
The hospital on the part of the limited
ability of nurses at the city hospital to
care of infectious disease cases
made known yesterday when
boys of the Bellefontaine Farm
School, classified as diphtheria
carriers, were denied admis-
sion to the hospital. They are still at
the hospital. They are ac-
cording to the hospital authorities, they are
a menace to the entire popu-
lation of boys.
Commissioner Shutt said
ordinarily the boys who carry
germs in their throats
be sent to the isolation hospi-
tal where all cases of infectious dis-
eases are treated, but that that insti-
tution being filled, an emergency
was fitted up at the city hospi-
tal and it had been planned to treat
cases there if sufficient
space could be obtained.
It has been told, three graduate
nurses left the city hospital staff re-
sulting for better jobs, and it is re-
ported that more resignations will
follow. The nurses receive \$82 a
month and work 12 hours a day.
The board of health is a bill before the Board of
Health to increase the pay to \$90
the first year, \$100 in the second
year and \$110 in the third year.

Thomas Jefferson Coolidge Dies.
Associated Press.
STON, Nov. 18.—Thomas Jef-
erson Coolidge, former United States
minister to France, died at his home
last night. Coolidge was born

in Boston in 1831. He was at one
time president of the Atchafalaya, To-
peka & Santa Fe Railroad and of
the Oregon Railroad and Naviga-
tion Co. He was Minister to France in
1892 and 1893.

Preparing for one hundred
and twenty million meals
with Karo Maple for 1921

Last year American housewives
bought over five million cans of
Karo Maple. Delicious flavor,
moderate price and wise buying

Do you know that the makers of Karo
Maple are the world's largest users of the
purest and best flavored maple sugar?

That over a thousand tons of maple
sugar from the finest maple groves in Ver-
mont and Canada are used each year to
make Karo Maple?

Karo Maple is pure and wholesome—its
flavor is not an imitation.

Yet the price is so moderate that you
can afford to serve it at every meal.

Try it just once, on some nice hot waf-
fles, or brown pancakes. Or as a spread
for bread or crisp toast.

If Karo Maple isn't the most satisfying
syrup you ever tasted, at the most satisfy-
ing price you ever paid for a similar syrup,
return the balance of the can and the
grocer will refund your money.

Mexican Strikers Take Over Mines. EAGLE PASS, Tex., Nov. 18.—The strike situation in Coahuila became aggravated when strikers yesterday took over the mines, according to an official message received here from Mexican Consul Emiliano Tames. The message stated that the Govern-

ment disapproves of the action taken and will hold strikers responsible for all destruction of property and disorders. Protection to Americans was guaranteed the message stated.

FOURTH RED CROSS ROLL CALL SHOWS REVIVED INTEREST

Indications Point to Number
of Enrolled Members Sur-
passing All Efforts Since
1917 Campaign.

MANY NATIONALITIES
AID FUND CAMPAIGN

Protestant Ministers Asked
to Designate Next Sunday
as "Red Cross Day" in
Their Churches.

Interest in the fourth annual roll call of the Red Cross, which opened here yesterday, is greater than at any time since 1917. Frank V. Hammar, head of the roll call organization, said today. He said he believed the achievement of last year, in which 145,000 adult members and 90,000 junior members, were enrolled, would be surpassed this year. As an illustration, he said he met three letter carriers on the street today and they told him that each had obtained 75 memberships this morning.

Members already have been enrolled from Americans of more than a dozen different nationalities. Among these are Russian, Italian, Polish, Hungarian, Czech-Slovak, Croatian, Lithuanian, Syrian, Greek and Albanian.

A comprehensive organization has been constructed to make certain that every person in the city and county is solicited at least once. There are 10 different divisions, some territorial and some industrial. Letter carriers are soliciting and accepting memberships, and it is planned also to use policemen in soliciting.

Booths were opened yesterday in stores, hotels, banks and office buildings, and will remain open throughout the roll call, which ends Thanksgiving day. The Protestant ministers of the city have been asked to make next Sunday Red Cross day in their churches. The slogan, as in former drives, is: "All You Need Is a Heart and a Dollar." Adult memberships are \$5 each, and junior memberships, 25 cents each. It is being emphasized that the money collected will be used in this district exclusively, excepting any surplus which may be left over, which would be turned into the national fund.

A mass meeting of team captains and assistants of the women's division is scheduled for 2:30 p. m. today at Vandervoort's music hall, at which Mrs. Frank V. Hammar, chairman of the St. Louis Chapter, will describe the peace-time program of the Red Cross in St. Louis and at which Mrs. B. G. Bush, chairman of the division, will issue final instructions to the workers.

The series of downtown band concerts given yesterday will be repeated each day of the drive. They are, however, solely for the purpose of calling attention to the roll call and no solicitation is made at the concerts. No street solicitation will be made at any time.

UNIDENTIFIED MAN FALLS DEAD

Had Introduced Himself to Saloon-keeper as Martin Kline.

A man supposed to be Martin Kline, a lumber inspector, fell from a chair while eating lunch in a saloon at 400 South Second street last night and was pronounced dead when a physician was called. The body was taken to the morgue.

Gus Esselberg, proprietor of the saloon, told the police the man came into the place several days ago and introduced himself, but did not tell whence he had come. He frequented the place at night. The man is described as 65 years old, 5 feet 7 inches tall, 150 pounds, red hair streaked with gray, and wore a dark suit, flannel shirt and army shoes.

SOUPS, sauces and gravies are improved by the useful flavor of Red Cross Bouillon Cubes. They have the real beefy flavor—their special four-fold wrapping insures that.

Own
Your
Home

The great American impulse, from the time of our forefathers, has been the creation of a place to call home.

The early settlers left their home country to conquer the wilderness of a new world that you, their children, might reap the reward.

They were homeseekers, homebuilders, the founders of the immortal American spirit, the spirit to create—not destroy.

Are you upholding that spirit? Are you working for a home of your own, a place to go for rest and quiet, after the good days' work.

Are you building up a savings account with that purpose in view? If you are, you are upholding the American spirit. If you are not, open one today.

Pour Ham Gravy Over It

FRY a slice of ham. Boil a dish of rice so that the grains all stand separately. Then just pour the ham gravy over the rice and let it seep down through every plump, tender flake. The rice will take the delicate flavor of the ham. And you will enjoy one of the finest meals you ever sat down to.

Rice should be served as a vegetable. It's great with meat, or fish, or poultry. It adds wonderfully to soups and stews. Eat it every day as you do potatoes with gravy or butter on it. Rice is the best food grown. American rice is the finest in the world.

No other food can be served in as many delightful ways as rice. There are over three hundred tasty dishes that rice can be made into. Just try it with sugar and cream for breakfast.

It saves you money. Rice is the most economical food. One cupful makes enough for five people. There is no need to ever waste rice. If any is left, it can be made into one of many very tasty dishes.

Rice keeps you healthy. It sustains your energy. It gives you strength. It nourishes you. Rice digests in one hour. This is quicker than any other food.

ASSOCIATED RICE MILLERS OF AMERICA, Inc., New Orleans, La.

The Master Recipe from the South

As cooks, the southern mammas are justly famous. This is their recipe for boiling rice. It is so simple that anyone by following it, can cook rice successfully the first time they try. Wash rice thoroughly in a strainer. Use a deep porcelain or enameled-ware kettle. To four cups of boiling water add one level teaspoonful of salt. Then add one cup of washed rice so slowly that water continues to boil. Lift rice occasionally with fork and shake kettle so that no kernels stick to bottom. But—this is important—never stir the rice. Boil twenty minutes. Then pour water off, if any, and place in open oven where it will finish swelling without burning. Each grain will stand alone, plump, tender, and delicious.

Consult any standard cook book for a number of excellent recipes for rice. Here are a few others.

RICE PATTIES

Mix thoroughly with a cup of cold boiled rice, two level tablespoons of flour, add a cup of boiling milk and cook until it thickens, stirring constantly. Then add a teaspoonful of butter, a pinch of salt, a little nutmeg and two eggs, beat the yolks and then the well-beaten whites. Cook all together a few minutes, then drop into greased gem pans and bake in a moderate oven until brown.

RICE WAFFLES

Use one cup of cold boiled rice pressed through a sieve. One cup of flour, half a teaspoonful of salt, one teaspoonful of sugar, one teaspoonful of baking powder, two eggs, beating one teaspoonful of butter into the sugar, sift together flour, salt and baking powder; add to the sugar and butter, then add the yolks of eggs and the rice, this with milk to the consistency of cake batter, fold into it the beaten whites of the eggs. Have waffle iron hot and carefully greased. Fill two-thirds full, close, and turn when brown.

STUFFED BEEF HEART

Wash heart, remove the veins and arteries. Stuff with dressing made with rice, sew or tie. Roll in flour, sprinkle with salt and brown in hot fat. Place in casserole, add water to half height and cook slowly two hours. Turn once or twice during cooking. When done thicken liquid and season for gravy.

"SHALL JAPAN FIGHT AMERICA" DEBATED

Tokio Students Indulge in Vehement Oratory, but No Vote Is Taken on Question.

By the Associated Press.
TOKIO, Nov. 16 (Tuesday).—Two thousand university students met here tonight to discuss the question: "Shall Japan Fight America?"

The debate lasted four hours and was marked by vehement oratory, but the audience remained in good humor during the evening.

The managers of the meeting, out of deference to the police, decided not to take a vote on the merits of the question as disclosed by the speakers, and apparently the audience was equally divided as to the expediency of war between the two countries.

Speakers taking part in the debate agreed that the action of California in legislating against Japanese owning property in that State furnished a sufficient cause for hostilities, but they differed concerning the expediency of going to war.

Many pointed out the fact of America's wealth and preparedness contrasted against Japan's weakness. One student thought that, if Japan attacked America over this question, other white races might combine against Japan. The orators freely praised America's past friendliness for this country, but added: "Now that Japan is grown up, America is tired of us."

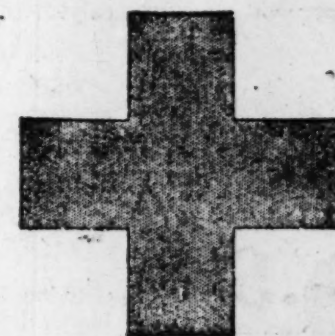

Situation Improved.
There is a distinct improvement in the situation between Japan and the United States relative to the California controversy, and officials evidently believe real progress is being made in the negotiations between the two countries. Hitherto there has been a somewhat pessimistic attitude, which has been created by the many delicate points involved.

Members of the House of Peers are showing their interest in the international cable conference being held in Washington. A deputation of all parties in the upper house of Parliament waited upon Viscount Uchida, Foreign Minister, and discussed the cable connection between Japan and the Island of Yap. Later representative members of the upper chamber met and decided to urge the Government to protect Japanese interests in this line.

Bush on Association Board.
By the Associated Press.
CHICAGO, Nov. 18.—B. F. Bush, president of the Missouri Pacific system, was elected to the Board of Directors of the American Railway Association here yesterday. Bush represents Texas and Louisiana.

To Lessen Human Misery

We cannot prevent calamity, but we can halt the horrible aftermath of pestilence, starvation and misery.

YOUR dollar membership in the Red Cross is the answer. There is no way to forestall fires, floods, tidal waves, hurricanes, volcanic eruptions, but a way remains to check the human tragedies following them.

The Red Cross Knows the Way

Its ministry of mercy follows quickly, effectively, on the path of disaster. It is the only organization that knows how.

The Red Cross graduated with striking honor from the greatest school of tragic experiences—the World War. It now remains a matchless asset to America. It is the doctor and nurse to the Nation. It still ministers to the thousands of crippled soldiers in many hospitals and tenderly cares for the families of these heroes.

Can anyone desire to lessen this charity and mercy? This you would surely do by failing to renew your membership in the Red Cross.

What the Red Cross has done for the families of service men in St. Louis is history: 59,000 visits were made and help was extended in 141,000 cases.

There are NOW in St. Louis 1300 cases receiving Red Cross care.

Football Is One Sport That Will Always Be Clean—the Scrubs Will See to That

Flanagan Meets Southern Bantam In Bout Tonight

Local Boy Opposes Boxer With Punch in Red Watson of New Orleans.

STAPP - KERN TOMORROW

Pair Are Scheduled to Meet in Feature of Opening Show at the Stag A. C.

Patsy Flanagan, the local bantamweight, who has not been in action in a local ring in some time, will get a real test tonight at the South Broadway A. C. when he tackles "Red" Watson, the New Orleans heavyweight, in the scheduled eight-round feature bout. Two other contests have been arranged by the officials.

In the semi-final, Al Thomas, local lightweight, and Al Neenan, a slinger from Cape Girardeau, are scheduled to meet for eight rounds, while a six-round bout between Jimmy Wallace and George Butch, local 125-pounders, opens the show.

The contest with Watson tonight should determine just where Flanagan stands among the local bantams. If he is the winner, then he can be classed ahead of Peewee Kaiser (at least on the latter's showing against Donza last Monday), as Watson owns a knockout victory over Donza. Even a close fight on the part of Flanagan will be a big boost to his stock.

Watson Owns Knockout Punch. Despite the fact that he is not yet 20 years old and has been boxing only two years, Watson has met, among other boys, Pat Moore, the Memphis candidate for the championship honors. Watson floored Moore in the first round, but was disappointed thereafter.

He is a rough-paw and his style may worry Flanagan, who has never before encountered a left-handed boxer in the ring. Watson also owns a knockout punch, as is shown by his record. Flanagan has not experienced a sleep-producing wallop in the local contests.

Walter Helmer will referee all bouts, the first of which will start at 8:30 o'clock.

Stapp to Meet Kern. The Stag A. C. will stage its opening show of the season tomorrow night, when six bouts, all scheduled for four rounds, will be held at the clubhouse, 2214 South Jefferson.

In the feature, Charley Stapp and Bunker Johnny Kern, rugged 150-pounders of the city, are scheduled to meet. The men have battled before, and the last time they were in the ring together, Stapp was victorious in 10 rounds. It will be Stapp's first appearance in a local ring in more than a year. He has been battling throughout the Southwest, taking on all comers.

Several out-of-town boxers will make their local debuts tomorrow night, among them being Eddie Beecher of New York, Chick Saunders of Boston and Kid Faxon of Pittsburgh. Faxon was a soldier stationed at Jefferson Barracks.

The Stag A. C.'s complete card is as follows:

- Charley Stapp, St. Louis, vs. Johnny Kern, St. Louis; 150 pounds.
- Eddie Beecher, New York, vs. Joe Blackburn, St. Louis; 145 pounds.
- Eddie Felix, St. Louis, vs. Kid Faxon, Pittsburgh; 150 pounds.
- Willie Haller, St. Louis, vs. Benny Baker, St. Louis; 135 pounds.
- Chick Saunders, Boston, vs. Joe Turner, St. Louis; 145 pounds.
- Jimmy Parker, St. Louis, vs. Walter Knoke, St. Louis; 160 pounds.

Walter Helmer will referee. Admissions are \$1 for general admission and \$1.50 for reserved seats.

ILLINOIS CAPTAIN IS INJURED IN PRACTICE

URBANA, Ill., Nov. 18.—Joy over the news that Halfback Don Peden may recover from the injury to his arm and be able to play part of the game against Ohio State next Saturday was turned to gloom today when it was learned that Capt. John Peden, center, received a serious injury to his shoulder in the final minutes of scrimmage last night.

The only reserve center of the Illinois football team, Peden, is almost without practice since Capt. Depler had been fortunate in avoiding injuries and was carried as one of the strongest factors in the light forward line of the Illinois team. It was feared Peden's arm had been fractured while playing against Wisconsin last Saturday, but Coach Zupke today said he had so far recovered that Peden may be used in one period.

FITZGERALD TO COACH CONCORDIA BASKETBALL

Paddy Fitzgerald, who for many years coached the Columbia A. C. basketball team, has signed to direct the Concordia Seminary quintet this season. It has been announced. Fitzgerald has already taken charge of the squad and has some likely looking talent. The players are working out at Community Center hall.

Managers who have returned are Mappes, E. Meichner, J. Beck, E. Schmitt and O. Trinkl. L. Schaefer, J. Meichner, C. March, J. Jungeman and W. Pohl have shown up best among the new candidates.

AUSTRALIAN DAVIS CUP NET TEAM IS SELECTED

LONDON, Nov. 18.—A dispatch to the Exchange Telegraph from Melbourne says that Norman E. Brooks, Oswald E. Patterson and Pat O'Hara will play against the American team for the Davis cup, the international lawn tennis trophy. The dispatch adds that R. W. Heath or J. B. Hawkes will fill the fourth place on the Australian team.

Coaching Systems, Not Individual Stars, to Clash in Yale-Harvard Tilt

No Brickleys, Mahans, Caseys, Coys or Kilpatrick to Monopolize Honors—Uncertainty of Directors as to Lineups Indicates Caliber and Makeup of Gridiron Elevens.

Harvard and Yale may play great football next Saturday; the game may even turn out to be a battle of coaching systems, with the ultimate winner remaining in doubt, according to the best interests of popular fiction, until the final whistle cuts through the bleak stillness of the late fall afternoon. All of this may happen because it is typical of Harvard-Yale football, but in one respect the game will differ from any held within a span of 10 years, to wit and as follows:

There is not a single outstanding star in either ensemble. Where once it was the custom to reckon the Harvard attack in terms of Wendells, Hardwicks, Brickleys, Mahans and Caseys, one must now point to the anonymity of a successful Harvard system.

The same applies to Yale. Only one so. Suffice it to say that Yale is devoid of players anyway at all conspicuous as individuals. Capt. Tim Callahan might be named to the contrary, but good as he is, much of Capt. Tim's work is conducted under cover of line play.

There are no Coys in the back field, no Kilpatrick nor Bombers on the wings; merely a football team, and as such a none too representative team at that.

The Old Houghton System. The Harvard team needs little comment. It operates upon the theory that practice of the old Houghton system, apparently not dependent upon individuals, is the key to success.

For all of the foregoing, there are human elements in the Yale machine that are not entirely above suspicion in the matter of being stars in the rough. Kempton, for instance, can run wild once they get him past the line of scrimmage. This they have yet to succeed in doing in a big game. Hence, Kempton, has been disappointing to those who are ever looking for the sensational.

Mack Aldrich is another who might spring into fame immortal under the sun and sunset. He appears to have much in the way of natural talent, but early season injuries have hampered his development.

Lineups Not Yet Certain. The very uncertainty of the rival coaches in the matter of selecting first string lineups is indicative of the caliber of the teams. Even now it is possible that Sedgwick will replace Faxon in the Harvard line, while Fitts and Buell are being named as probable choices over Churchill and Fitzgerald in the back field.

In fact, Dr. Fisher has almost complete backfield combinations. Fitzgerald, Owen, Churchill and Horween, or Buell, Fitts, Owen and Horween, with Humphrey as an added possibility for either Fitts or Churchill.

At New Haven, the board of strategy seems to be as one mind in the elimination of Jordan and Campbell in favor of Sturm and Aldrich embracing Kempton and Kelley. Thus is Thorne Murphy also relegated to one of the rear rows. Dickens also may be brought around in time for the game, in which event there will be another shift in the forward line, as he is considered the strongest tackle in the squad.

Harvard in Hard Scrimmage.

CAMBRIDGE, Mass., Nov. 18.—The unexpected happened on Soldiers' Field yesterday afternoon, when, waving precedent aside, the Harvard football coaches sent the varsity players into a short but brisk scrimmage against the second team to wind up hard work for the Yale game at New Haven on Saturday.

The scrimmage was a real one, and not at all of the dummy order. The scrum was not allowed to hammer at the varsity with offensive plays, but had plenty to do on the defensive. Dr. Fisher using all the men, except Tom Woods, who is still nursing his bruised leg.

The regulars went at the scrum in dead earnest and scored one touchdown. This was made by Capt. Horween following a series of steady gains.

The varsity used practically all the plays on which it had been working so hard for the past ten days. The eleven had no defensive drill. That is over for the year.

Frequent Changes Made.

The team when it first went against the scrum yesterday lined up as follows: Kane, left end; Faxon, left tackle; Tolbert, left guard; Havemeyer, center; Brown, right guard; Hubbard, right tackle; Crocker, right end; Buell, quarterback; Owen, left halfback; Churchill, right halfback; and Horween, fullback.

MIDDLE WEST BOWLERS TO COMPETE FOR PRIZES

TOTALING \$11,078

The prize fund for the annual Middle West bowling tournament, to be opened tomorrow on the Washington alleys, totals \$11,078, a new record for the event. It was announced yesterday by Frank Biedel, secretary of the local tournament company. The total entry includes 245 five-man teams, 441 in doubles and 147 individuals.

The local entry list outclasses any previous Mid West total by 79 five-man teams, 179 two-man and 232 individuals. The total entry fee was \$14,770.

Tigers Obtain Pitcher.

DETROIT, Mich., Nov. 18.—Bert Ellison, Tiger infielder, has been added to the San Francisco club of the Pacific Coast League today for Pitcher Cole. President Navin of the Detroit Americans announced.

14,000 Expected To See Billikens And Pikers Clash

Crowd Will Tax Capacity of Francis Field for Thanksgiving Day Battle.

The largest crowd in local football history is expected to witness the annual game, between Washington and St. Louis University elevens at Francis Field, Thanksgiving afternoon. The issue is no greater than heretofore and neither team has met with any great success.

It was asserted that this order was not to be taken as final for the game. Sedgwick soon relieved Faxon at left tackle. Macomber took a whirl at quarterback and both Fitts and Humphrey worked in the Horween system.

While the condition of the field at Francis Field was not ideal, it was not as bad as it might have been. The field was in good condition for the beginning of the game, there is every reason to think that he will start Sedgwick ahead of Faxon at left tackle.

Fitts has not been doing as good work as a kicker. Behind scrimmages as the coaches would like, although when he does get going his punts are by far the best in the field.

Churchill, while considered light, may be said to have an even chance to start, but if he does, it is not likely that Buell will be at quarter.

Owen, Buell and Churchill were on last year's freshman team and if all three started, Capt. Horween would be the only player with Yale game experience behind him.

Mud Hampers Yale Squad. NEW HAVEN, Conn., Nov. 18.—The Yale varsity went out to the Bowl yesterday afternoon prepared to practice in the mud, but the mud was so deep and the rain so pelting that the coaches finally ordered the men to the baseball cage where there was a long signal drill and a dummy scrimmage.

There were plenty of coaches back to encourage the men, but the spirit was not strong. Little encouragement was needed. Among the former players out were: Foster Rockwell, Paul Veeder, Pinkie Paige, Carter Galt, B. O'Brien, Chester Laroche, Charlie Tatt, Ted Lilley, Burr Chamberlain and Carl Wiedeman.

The varsity lined up with Cutler and Bean, ends; Into and Walker, tackles; Acosta and Callahan, guards; Cross, center; Kempton, quarterback; most two left halfbacks: Frank Kelley, right halfback, and Sturm, fullback.

This lineup three days before the final big game looks like the one that will start against Harvard, although Jones has made no formal announcement.

Dickens is rounding into condition and was playing left tackle on the second team yesterday, with Mackay at right tackle. Thorne Murphy was at quarterback and Doc Jordan, who started the Princeton game, was at fullback.

The rest of the second team was made up as follows: Sherin and Dilworth, ends; Quille and Hagg, guards; Calvin, center; Wakelee and Lay, halfbacks.

For a while Sherin and Dilworth went through signals with the varsity, but in the dummy scrimmage they were on the second eleven.

Specialize in Passing.

The team had some work in blocking punts and drop kicks, but the time was principally given over to forward passing and defending against forward passing.

Boy Lay has come around again into good condition that there is some chance that he will start against Harvard. He was injured in the West Virginia game and it was expected he would be out of play for the rest of the season.

It would not surprise anyone if Wakelee, left halfback on the second eleven, also gets a chance against Harvard. No man has come along faster on the Yale squad this year. He started as a substitute halfback on Dr. Buell's eleven. He is only 18 years old and weighs 160 pounds. He learned the game at Lawrenceville.

The advance crowd for the game has begun to arrive in New Haven and the hotels are filled. There is no lack of interest because of the defeat by Princeton last Saturday.

The ticket department is besieged and there are no tickets to be had. The field is muddy and will be so on Saturday, no matter what the weather, on account of the defective drainage system.

There will be a short scrimmage tomorrow at the Bowl, followed by a signal drill on Friday. The gridiron, however, for the greater part of Friday afternoon will be given over to the Harvard team, which will arrive here at 1:30 o'clock. The Harvard men will spend the night in Derby, Conn.

HAL CHASE WILL NOT RESPOND VOLUNTARILY TO CHICAGO INDICTMENT

LOS ANGELES, Nov. 18.—Hal Chase, former major league first baseman, will not respond voluntarily to the indictment issued against him by the Chicago Grand Jury in connection with his inquiry into alleged baseball crookedness, he said here yesterday.

Pressure of business interests in California will prevent him from going to Chicago in answer to the indictment, unless he is extradited, Chase said. "I am planning to go into business," Chase said, who is in Los Angeles for a short visit.

Yankee Officials Meet.

NEW YORK, Nov. 18.—Selection for a spring training ground and other "family matters" were on the program at a conference of owners and managers, and scouts of the New York American League baseball club here today. It was indicated that several strong players from other times would be brought into the Yankee fold.

Local Soccer Teams Will Play First Cup Games on Turkey Day

The first round of cup games for the teams in the St. Louis Soccer League will be played at Cardinal Field, Thanksgiving day. This was decided at a meeting of the league officials last night.

The managers decided to play on this day rather than throw the entire schedule out of rotation.

For the cup battles, the Ben Miller will oppose the Innisfailla, while the Scullins tackle the Screw Co. The starting time will be decided at a later meeting. The periods will be of 45 minutes duration to conform with U. S. F. A. rules.

It also was decided that the admission for the cup clashes would be 50 cents and 25 cents was tax extra. Rules of the national body state that admissions to all clashes after the opening round must be 50 cents.

The league will purchase a banner of scarlet with white letters engraved as follows: "Ben Miller, champions U. S. F. A."

RUTH SIGNED TO PLAY 10 MORE GAMES IN CUBA

HAVANA, Nov. 18.—During the series of baseball games played by the New York Giants in this city, "Babe" Ruth, the champion home-run hitter, compiled a batting average of .345.

The ticket sale began Monday, with the pastebards on sale at the two institutions and at Leacock's and Spalding's. All of the south side boxes have been taken, between the two-day runs, while practically three-fourths of the field boxes have been sold at the Grand avenue school.

General admission to the game will be \$1.50 and no seats will be reserved except in the boxes.

Officials Are Selected.

Officials for the contest were announced yesterday and insure that the game will be handled in the best possible manner. J. Macdoshin of Michigan will referee; J. C. Masker, Northwestern, umpire, and Don Henry, Kenyon, will serve as head linesman.

Billikens Display New Energy. Yesterday's practice at Sportsman's Park showed a new energy in the Billiken play and sent Coach Rademacher's hopes upward. His backfield "gridders" have shown a lot of aggressiveness throughout the season, but yesterday even the big linemen entered into the spirit of the rally and battled with a reckless abandon against the freshman-alumni combination.

The Thornton, Gerritzen, McFalls and Lewis backfield turned up this quartet all week before he determines who will get the pivotal assignment, Thursday.

Four men were also working as guard stations. Melnhart, Doehr, Goefray and Dubouillet dividing the scrimmage. It seems that it is right here that the Pikers will outclass St. Louis U. Haffer, Deeds and Singletton have held their positions from the start of the season, whereas Rademacher has been forced to make weekly shifts.

There was a scrimmage at Francis Field, with every member of the squad, except Grant, participating.

IOWA COACH PUTS THREE HAWKEYES ON STAR TEAM

IOWA CITY, Ia., Nov. 18.—Coach Howard Jones of the Iowa University football team today gave out a list of players eligible, in his opinion, for an all-conference eleven, as follows:

- Left end—Carnay, Illinois.
- Right end—Selling, Iowa.
- Right tackle—Stiller, Iowa.
- Left tackle—Huffman, Ohio.
- Right guard—Mohr, Illinois.
- Left guard—McGuire, Chicago.
- Center—Depler, Illinois.
- Quarterback—A. Devine, Iowa.
- Right halfback—Williams, Indiana.
- Left halfback—Stinchcomb, Ohio.
- Fullback—Crangle, Illinois.

JIM BURKE MAY LEAD SEATTLE CLUB IN 1921

SEATTLE, Nov. 18.—Selection of a 1921 manager for the Seattle club of the Pacific Coast Baseball League probably will be announced next week. W. K. Kipper, president of the club, announced from Los Angeles yesterday.

Clyde Wares, last season's manager, is first choice. James Burke, former manager of a St. Louis club; Walter McCredib, Portland manager; Eddie Herr, John Gandel and others are also under consideration.

ED HOREMANS, BELGIAN CUE CHAMPION, ARRIVES

NEW YORK, Nov. 18.—Edward Horemans, the Belgian billiard player, arrived here yesterday on the steamer Nieuw Amsterdam from Rotterdam. He has come with the definite purpose of getting a match for the world's professional balk-line championship with Willie Hoppe, who has held the title for nearly 15 years.

COUNTRY DAY ELEVEN DEPARTS FOR MILWAUKEE

St. Louis Country Day School's football eleven will depart for Milwaukee tonight for its game with Milwaukee Country Day on Saturday. Sixteen players, Coach Kennedy and Manager Perkins are scheduled to make the trip, but the names of the athletes have not been announced. The eleven is scheduled to arrive in Milwaukee in time to hold a brief practice tomorrow afternoon.

Leonard, Weighing 136 at 2 O'Clock, Knocks Out Kelly

Champion Ends Bout in Fifth Round—Opponent Tips Scales at 141½ Pounds.

NEW YORK, Nov. 18.—Benny Leonard, lightweight champion of the world, knocked out Eddie Kelly of Harlem after one minute of fighting in the fifth round of their 12-round bout at the Commonwealth Sporting Club last night. Leonard's weight was announced as 136 pounds and 2 p. m. Kelly's as 141½ pounds.

Leonard landed a long, lashing left, followed almost immediately by a short, choppy right to the chin in this round, and Kelly flopped face forward to the canvas.

Dazed, he shook his head and rose, only to run into a right hook to the jaw that flung him back against the ropes.

Local Soccer Teams Will Play First Cup Games on Turkey Day

The first round of cup games for the teams in the St. Louis Soccer League will be played at Cardinal Field, Thanksgiving day. This was decided at a meeting of the league officials last night.

Leonard, Weighing 136 at 2 O'Clock, Knocks Out Kelly

Champion Ends Bout in Fifth Round—Opponent Tips Scales at 141½ Pounds.

NEW YORK, Nov. 18.—Benny Leonard, lightweight champion of the world, knocked out Eddie Kelly of Harlem after one minute of fighting in the fifth round of their 12-round bout at the Commonwealth Sporting Club last night. Leonard's weight was announced as 136 pounds and 2 p. m. Kelly's as 141½ pounds.

Leonard landed a long, lashing left, followed almost immediately by a short, choppy right to the chin in this round, and Kelly flopped face forward to the canvas.

Dazed, he shook his head and rose, only to run into a right hook to the jaw that flung him back against the ropes.

Jack Skelly, the referee, then intervened and stopped what had become a slaughter. Skelly waved Leonard to his corner and taking Kelly by the right arm steered him to his chair. Upon Skelly's action there were several loud boos from various sections of the orchestra seats, but it was apparent that Kelly had gone as far as he physically could.

After the fight Skelly said that he had disqualified Kelly because he thought he was looking for a "soft spot" to fall.

Is such was the case, Kelly certainly deserved a "soft spot" as he could find because he had taken enough stiff punches in the interval lapsing between the tolling of the bell for the fifth round and the time the referee took action.

Reynolds Beats Americus.

WATERLOO, Ia., Nov. 18.—Jack Reynolds, Cedar Rapids, claimant of the welterweight wrestling championship, defeated Young Americus in a straight falls here last night.

There's always room at the top for Highest Possible Quality at Lowest Possible Price

Be Your Own Guest of Honor

Lay your money on the dealer's counter and say "Spurs". You just can't go wrong, not even by a puff. That brown and silver triple-wrapped package gives you confidence. It's smart and dignified.

Open it up. Get a whiff. Right again. Good old-time tobacco. Nothin' but. Sharpens your smoke taste for a little banquet with just you as the guest of honor. Sit right down to it.

Light up a Spur. Take a long puff—and you'll go right to that old-time tobacco taste. It comes from the pick of Turkish, blended with Burley and other home-grown tobaccos. Crimped seam—not pasted—means slower-burn, longer-smoke, better-taste.

Try the only crimped cigarette in America—it's Spur.

LIGGETT & MYERS TOBACCO CO.

The Tigers Hold S Practice for With Jayhaw

Return to Squad of Re-jured Early in Year Lineup Uncertain

COLUMBIA, Mo., Nov. 18.—The Kansas Jayhawks were up on Rollins today afternoon as Coach F. Miller and James Phe an intensive campaign to the annual Turkey Day

between the Kansas Jayhawks and the Missouri Tigers. The squad will work behind again today and tomorrow

Monday and Tuesday of the practice will probably the ceremonial form of

preparations for the game took last year, with the on the bleachers and the hand on the field.

But the real work of the for Kansas is being done

The Oklahoma "Sooners" Thought It Best to Clinch the Title Sooner Than Later

Tigers Hold Secret Practice for Tilt With Jayhawkers

Return to Squad of Regulars Injured Early in Year Makes Lineup Uncertain.

COLUMBIA, Mo., Nov. 18.—The bars were up on Rollins Field yesterday afternoon as Coaches John F. Miller and James Phelan opened an intensive campaign preliminary to the annual Turkey Day clash between the Kansas Jayhawkers and the Missouri Tigers. The Missouri squad will work behind closed gates again today and tomorrow and Saturday the Bengals will come out of their three-day hibernation for a formal tangle with the freshmen. Monday and Tuesday of next week the practice will probably take on the ceremonial form which final preparations for the Kansas game took last year, with the howling 500 on the bleachers and the Missouri band on the field.

But the real work of getting ready for Kansas is being done this week

Princeton Loses Only Three Stars

With the football season past history for this year, Princeton is looking forward to the prospects for next year's team, which should be superior to even the 1920 aggregation if material means anything.

Of the men on the 'varsity, only three are lost through graduation, Davis, at end, Capt. Calahan, at center, and Joe Scheerer, at fullback. Eight other positions can be filled by this year's veterans, and several substitutes with men who are now ineligible, will undoubtedly more than fill the shoes of the departing. Head Coach Roper is to have Stinson as one veteran end, and Snively, this year ineligible, to take the other wing.

At tackle, both of this year's men remain. In addition to these there is Frank Rutan, who had a varsity berth clinched this fall when an early season injury removed him from further participation.

There are many good candidates for the guard positions, including Dickinson and McMannon, who were first choice all this season.

Shannon and Springgate have the call for the guard position, though the latter's injuries will probably give Pete Vilkas, the big Lithuanian member of the Tiger squad, a part of the game at least. Left tackle will, of course, go to the famous "Brick" Travis, and Al Goepel will be at left end.

The Probable Backfield.

The most likely pick for the starting backfield is Lewis, Lincoln, Fulbright and Humes. How they will line up is another matter. If Humes starts he will be at fullback, but if he is scratched and Williams plays the first quarter, it will be Al Lincoln who opens in fullback position, and Williams will be at half.

Fulbright will apparently be the choice for quarterback, though Packwood may get the berth, while Fulbright is held on the bench as a reserve or quarterback. In that case Lewis will play half.

MAJORS TO CONSIDER 168-GAME SCHEDULE

NEW YORK, Nov. 18.—When the major leagues hold their annual meetings in February, they will consider a proposition to lengthen each team's schedule to 168 games instead of 154, as heretofore, it was learned today. Proponents of the plan argued that since many of the teams are allowed to play on Sunday on their home grounds, the season would not be unduly lengthened by the proposed change.

13 DRIVERS TO COMPETE IN 250-MILE AUTO RACE

LOS ANGELES, Nov. 18.—Indicating the racing drivers' disregard of the superstitions, 13 entries were on file today for the 250-mile championship automobile race to be run on the Los Angeles speedway Thanksgiving Day. On the entry list, which closed last night, were Eddie O'Donnell, Roacoe Saries, Eddie Miller, Jimmy Murphy, Tommy Milton, Waldo Stein, Al Malcher and Jim Crosby.

Capt. Eddie Rickenbacker will act as referee.

SHARKEY WILL RETURN TO COUNTRY BY DEC. 2

NEW YORK, Nov. 18.—Tex Rickard, boxing promoter, has received a message from Jack Sharkey, who is in London, stating he would be in New York Dec. 2, to carry out his agreement to meet Joe Lynch on that date. The winner of the Lynch-Sharkey bout will meet Pete Herman here on December 21, Rickard said.

A. A. Umpire Is Dead.

LOUISVILLE, Ky., Nov. 18.—Louis W. Knapp, 35, umpire of the American Association, died after an attack of hemorrhage at his home here last night. He had been in declining health for some time. Prior to joining the American Association, Knapp umpired in the Central, Western, Bluegrass, Three I and Central Kansas Leagues. He was a graduate of the amateur lots at Louisville.

Amateur Boxers Meet.

NEW YORK, Nov. 18.—Amateur boxers representing Philadelphia and New York clubs, will meet in a series of bouts here tonight. Four classes, 110, 118, 125 and 145 pounds, will make up the card with four men in each. In addition, there will be a special middleweight contest between A. Schardt of Staten Island, and E. Colt of this city.

Boxing Officials Meet.

NEW YORK, Nov. 18.—The question of lifting the ban on heavyweight boxing bouts here was before the meeting of the State Boxing Commission and License Committee today. Holding of the forthcoming championship match between Jack Dempsey and Georges Carpentier in or near New York, was said to hinge on the outcome of today's discussion.

Veteran Turfman to Retire.

NEW YORK, Nov. 18.—Morton L. Schwartz, owner of prominent thoroughbred tracks in this vicinity, has decided to retire from the turf. It was learned today. He will sell his entire string of horses, including such winners as Enfilade, Audacious and Carefree.

Municipal Meeting Tonight.

Winter athletics will be given added force during the coming two weeks when two meetings will be held for the purpose of organization of the various branches of sport fostered by the Municipal Athletic Association. This evening there will be a girls' meeting at Mullagh's Center for the purpose of organizing teams and leagues to play basketball, field hockey and indoor baseball. All young ladies who are interested should attend. The other meeting will be held Tuesday evening, Nov. 23, and is intended for organization is basketball for men.

WOMEN SWIMMERS SET AN UNOFFICIAL RECORD

NEW YORK, Nov. 18.—Announcement of a new unofficial world's record for a 400-yard indoor relay race for women swimmers was made here today. The record was made last night by a quartet of American Olympic stars. The misses Ethelda Bleibtrey, Charlotte Boyle, Alice Lord and Allison Higgin, competing against a quartet of teammates to whom they conceded 35 seconds, covered the distance in the remarkable time of 4m. 43.5s, or 171.5 seconds under the international indoor standard set by the junior team of the same organization in Detroit last April.

Official recognition will not be granted to the feat by the A. A. U. however, because the Carroll Club pool in which it was made measures 58 feet, while the A. A. U. rules prescribe a length of not less than 60 feet for record breaking.

Davis Cup Team Sails.

VICTORIA, B. C., Nov. 18.—Members of the American Davis cup team sailed from here yesterday aboard the steamer Niagara for New Zealand, where they will attempt to win the trophy. Tennis games will be played on the boat and strict training rules will be kept en route.

DARWENT WILL TRAIN ATHLETES AT C. A. A.

CHICAGO, Nov. 18.—Samuel H. ("Doc") Darwent has been appointed physical director of the Chicago Athletic Association, to succeed Martin A. Delaney, who recently was appointed general manager. It was announced today by John J. Bachard, chairman of the C. A. A. Athletic Committee. The new Cherry Circle director is well known to the sporting contingent of the Middle West. He has been assistant to Delaney for seven years and assisted materially in the development of teams which have won many championships.

Ritola to Try for Title.

NEW YORK, Nov. 18.—William Ritola, cross-country Finnish runner, who won the A. A. U. hill-and-dale race at Vancourland Park last Saturday, will compete as an individual for national senior championship honors in the race next Saturday over the Franklin Park course in Boston.

BALTIMORE PLAYERS ARE SIGNED FOR 1921

BALTIMORE, Md., Nov. 18.—With virtually his entire team signed up—the same players who won the championship of the International League for the Orioles the last two seasons, and the inter-League series with the St. Paul American Association club this fall—Jack Dunn, manager of the Baltimore club, is not worrying about next year's baseball problems. His team very probably will train at Goldsboro, N. C., next spring. It was understood today, if some improvements he desires in the clubhouse are made.

Duofold Health Underwear for Men, Women and Children

"Well, change your underwear!"

You can't prevent cold, damp weather, but you can wear Duofold. Duofold is the patented underwear that has two layers in the one light, thin-feeling fabric. The outside layer (wool) keeps you warm and protected, while the inside (all-cotton) layer is soft and comfortable next to the skin. Feels good indoors and out. Ask your dealer to show you.

was wearing more than any picture shown in St. Louis in the past two years.

A big story for mature minds.

IT PLEASED EVERYONE WHO SAW IT LAST WEEK.

The POST-DISPATCH is the only St. Louis evening newspaper giving Associated Press news service.

MORE TRUTH THAN POETRY

By James J. Montague.

MAKING IT EASY.

Profiteers, rather than stand criminal prosecutions, have agreed to reduce their prices 10 per cent.

They never said to Captain Kidd—
That pirate of a vanished time—
"Although, of course, the laws forbid
Your rather ruthless form of crime,
We still will let you sail the sea
And scuttle ships, in the event
That you will privately agree
To cut your scuttling ten per cent."

They never said to Jesse James
Who looted safes and plundered banks,
"Although our jurist-prudence aims
To punish all such evil pranks,
We know that you have built a trade
And do not purpose it's destruction,
We'll let you loot, when you have made
At least a ten per cent reduction."

You do not tell the burglar, who
Comes climbing up your porch at night,
And takes, without the least ado,
Your watch, your money and his flight,
"I know you have a crooked bent;
That swag I will not miss a bit;
But I'd be pleased if you'd consent
To leave me ten per cent of it."

But in these more enlightened days
We do not follow statute books
For we've discovered that it pays
To make a compromise with crooks.
This method has a strong appeal
To thugs and profiteers and such.
If we will only let them steal
They'll promise not to steal so much.

BUT IT DOES.
The movement to annex Canada
would gain a big impetus if prohi-
bition didn't follow the flag.

WORTH REMEMBERING.
The mine owners should hear in
that, "They kept us out of
(Copyright, 1928.)

Tests.

ors, was obliged to refuse a great
many stories. A lady once wrote
him:
"Sir: You sent back last week a
story of mine. I know that you did
not read the story. For as a test I
had pasted together pages 18, 19 and
20, and the story came back with
these pages still pasted, and so I
now you are a fraud and turn
down stories without reading same."
Mr. Page wrote back:
"Madam: At breakfast when I
pen an egg I don't have to eat the
whole egg to discover it is bad."
—Writer's Monthly.

Far From Independent.

"You are a fortunate man," said
the automobile tourist.
"How's that?" asked the farmer.
"You are monarch of all you sur-
vey."
"I guess you are wrong, stranger.
still owe nine installments on that
actor you see, my hired man won't
pay any attention to what I say, and
there's a mortgage on the old home
place."—Birmingham Age-Herald.

Next Year.

"What are you frightened
about?"
"I hear somebody on the roof."
"Go to sleep, dear," replied his
mother reassuringly. "That's only
daddy taking his shoes off before he
sneaks in through the skylight. He's
been airplaning home from the
club."—American Legion Weekly.

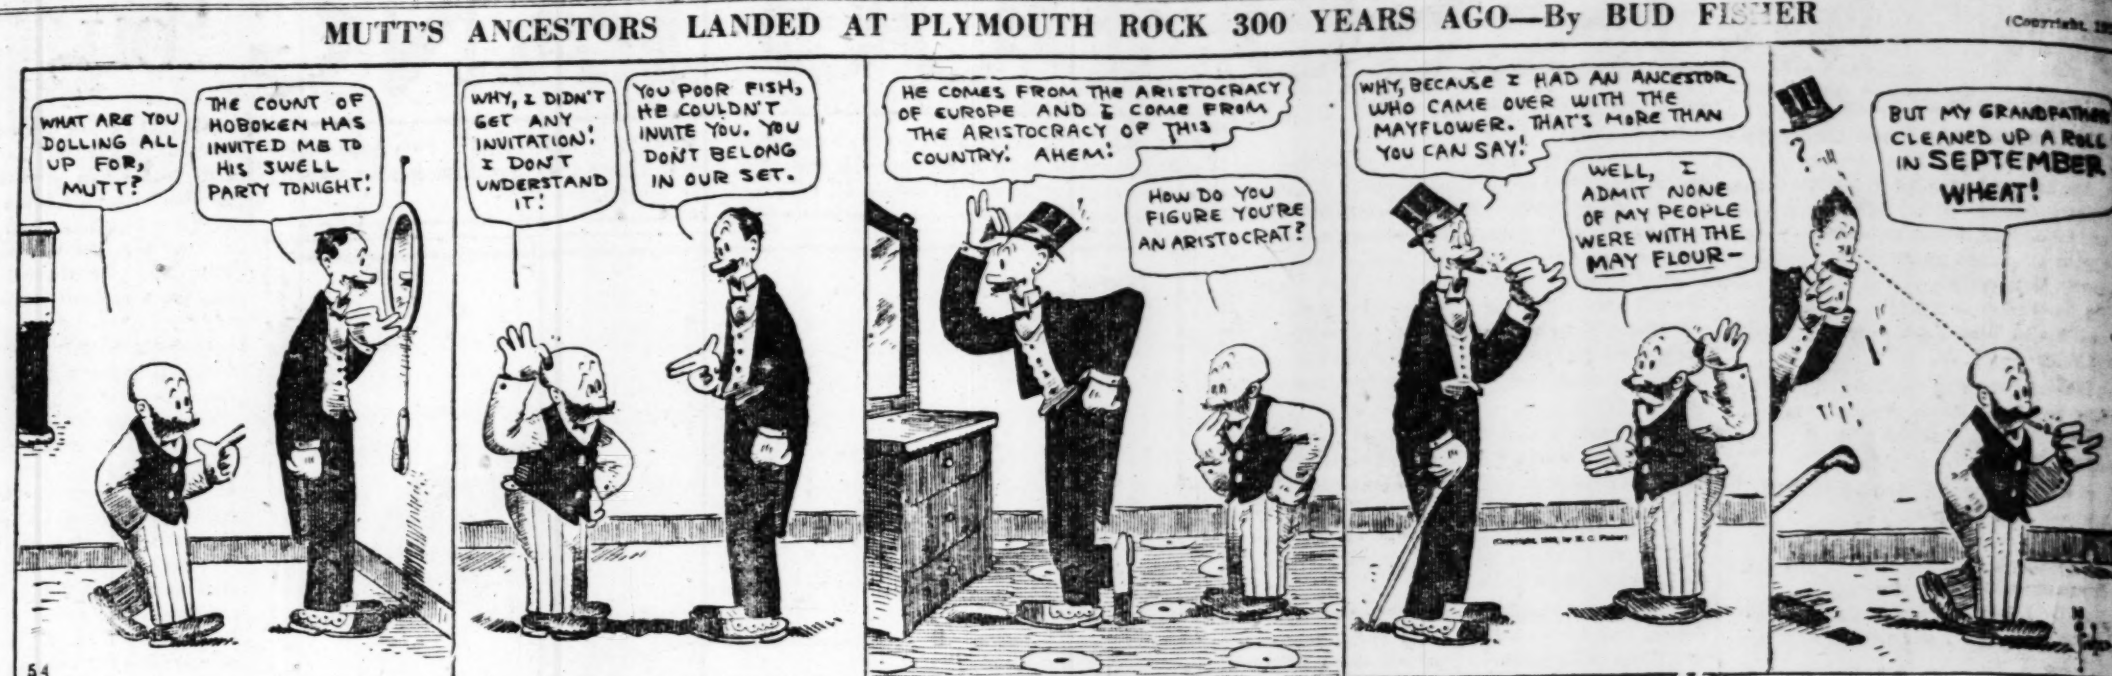

Just So.

"It is needless to say," began
Prof. Fate.
"Ah, yes!" interrupted J. Fuller
Gloom. "Isn't it singular, professor,
that the things needless to say con-
stitute a very large proportion of
the things that are said?"—Kansas
City Star.

On to Him.

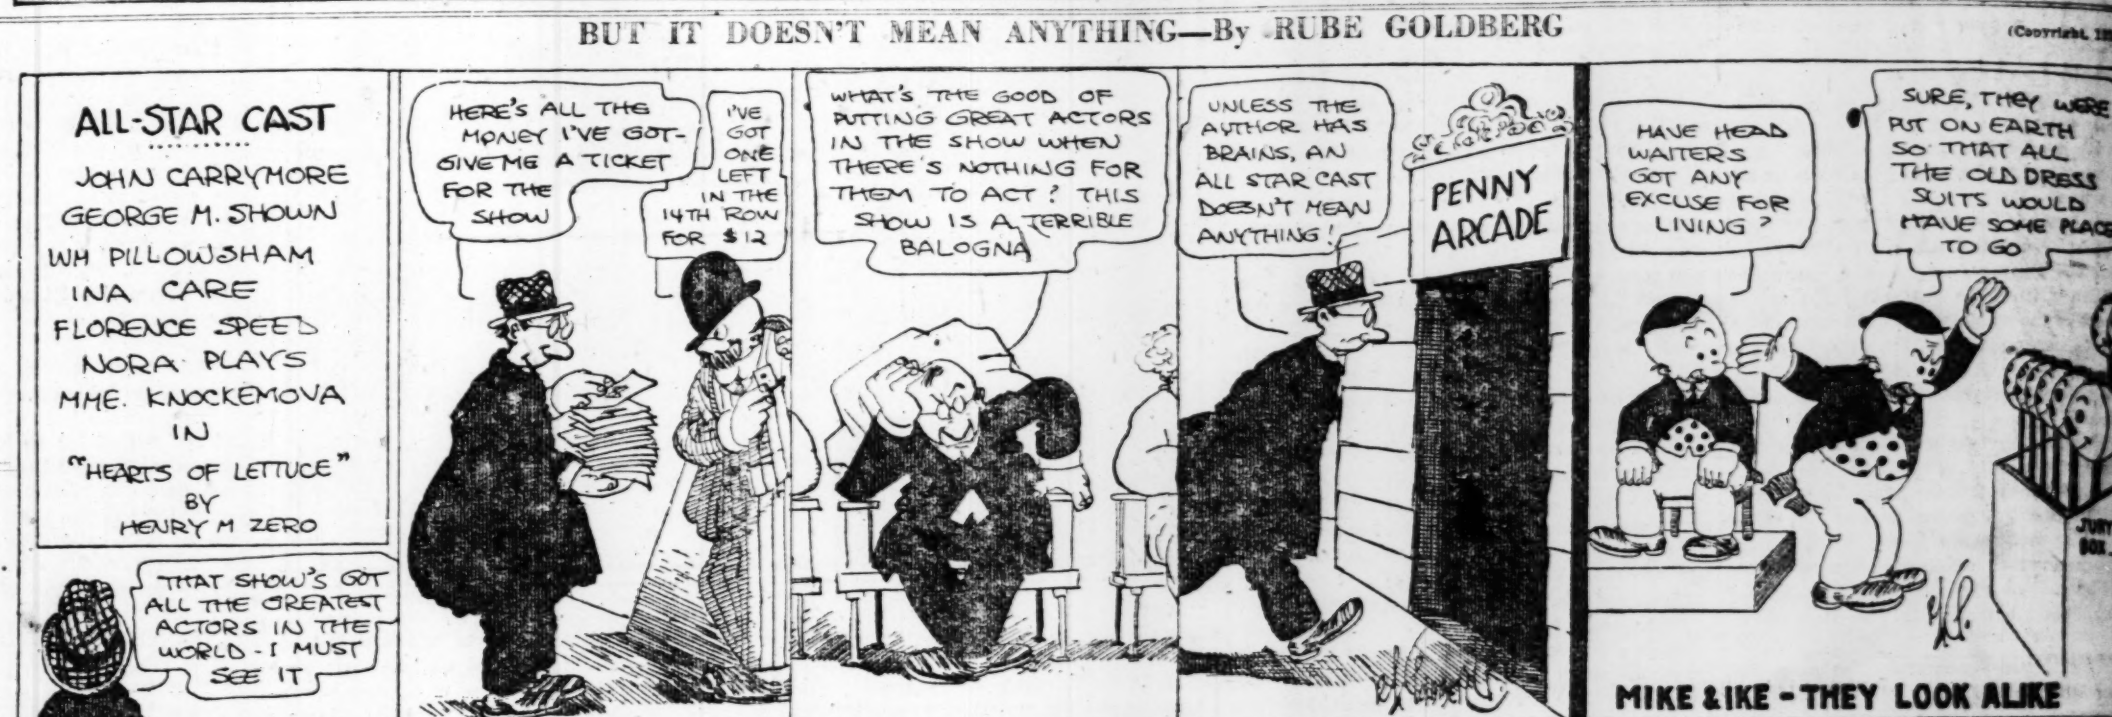

Wifey: So you were detained at
the office by a will case?
Hubby: Yes, dear; a consultation
with the hair.
Wifey: Yes; I see you brought it
home with you on your shoulder.
She was a blonde, I notice.—Detroit
News.

SOFT DRINK BAN
CLEANUP ORDER
BY CHIEF O'BRIEN

Movement Preliminary
Strict Enforcement
State Dry Law Which
Soon Be Effective.

WILL SEE THAT CITY
BECOMES BONE

Head of Department
Holding up of Statute
Year for Referendum
Been Handicap.

An order for a thorough
"cleanup" of St. Louis, with
attention to soft drink saloon
rooms and dance halls, was
issued by Chief of Police O'Brien
the same time, he issued an-
other to police captains, call-
ing them for closer co-operation
the different branches and
the department.

Chief O'Brien said to a
patch reporter that the
"cleanup" of soft drink saloon
preliminary to a police cam-
paign strict enforcement of the
dry prohibition statute. The
which was held up for nearly
by referendum petitions,
proved by the voters of the
the election Nov. 2, and was
forced soon after the vote
by the Secretary of State.

"The new law will be a
weapon for the police," Chief
said. "Under the new law, I
have the power to search
places for liquor. While we
soft drink saloons, everybod-
that their business at present
limited to soft drinks.
Hard to Control Now
"Up to this time, with
enforcement law, and with
called soft drink saloons
throughout the 24 hours,
these harboring loafers and
characters all night, condi-
the police have been hard
they were before Federal
tion went into effect. The
liquor saloons had to ob-
tain hours, and were closed
day."

"It may yet be necessary
the Board of Aldermen to
demandance for the regulation
places, fixing certain clos-
and giving the police more
fined powers of regulation
them."

The Chief's "cleanup" on-

Commanding Officers:

cleanup must be com-
permanent.

Edict Against Begging
Special attention must
to prevent street begging,
against the law, and no
will be tolerated.

In cleaning up the
writ attention is called
rooms, soft drink saloons,
halls and all other plac-
quented by hoodlums and
ables. It will be your du-
that all such places in
strict are run on strictly
lines or forced to close. T
with questionable reso-
shady places of all kinds
You will start to work
order immediately and
there is no letup until the
thoroughly purged. Wh
cleanup is complete you
that it continues so.

Respectfully,
MARTIN O'BRIEN
Chief of
